| Gain                        | 26 gain     |
| Product weight              | 35 g        |

### Full product description

#### ACGPSA MikroTik

ACGPSA MikroTik is a stand-alone active **GPS** antenna that operates in the **1575.4 MHz** band. The size of the antenna is 46.5 mm x 26.5 mm x 12.5 mm with **IP67** protection rating and includes an internal magnet and double-sided tape, so it can be easily attached to different surfaces and is resistant to different weather conditions.

### **LtAP connection possible**

It has a long, 5 meter cable with an **SMA** connector, which can be connected to **LtAP mini** using an ACSMAUFL cable (available to order separately).

### **The most important features:**

- Operating band - 1575.4 MHz
- Cable 5 meters long
- Dimensions: 46.5 x 26.5 x 12.5 mm
- IP67 protection rating
- SMA/m connector
