Price: **751.53 zł** gross / 611.00 zł net

Manufacturer: MIKROTIK

Referention number: DNXXGOOMMRMNHM

Information:

MikroTik Chateau PRO ax is a high-performance Wi-Fi 6 router and access point designed for demanding home, office and professional users. Equipped with a quad-core IPQ-8072A 2.2 GHz processor, it delivers high speed, smooth operation and support for advanced features such as hardware IPsec encryption. It offers PoE and PoE-out power supply, making installation easier and allowing additional devices, such as IP cameras, to be powered. The USB 3.0 port enables the connection of storage or a drive, while 5 Gigabit Ethernet ports guarantee fast and stable wired connections. It is a versatile solution for a reliable and flexible network.

Product features

Regulatory Approvals	CE, FCC, IC, EAC, ROHS
Antenna type	External
USB connector type	USB Type-A
Maximum data transfer rate	3548 Mb/s
Power consumption (max)	55 W
USB 2.0 ports quantity	1
Networking standards	IEEE 802.11a
Ethernet LAN (RJ-45) ports	5
DC voltage range	18 V
DC-in jack	Yes
Processor frequency	2208 MHz
International Protection (IP) code	IP20
Power over Ethernet (PoE)	Yes
Internal memory	1024 MB
Placement	Table

Built-in processor	Yes
Antennas quantity	2
Product colour	Grey
Maximum data transfer rate (5 GHz)	2400 Mb/s
Maximum data transfer rate (2.4 GHz)	1148
6 GHz	No
5 GHz	Yes
2.4 GHz	Yes

Full product description

MikroTik Chateau PRO ax - Highest Quality, Best Performance

MikroTik Chateau PRO ax is the most efficient Wi-Fi 6 solution from the Latvian manufacturer, created with professional users in mind. At the time of its debut, the Chateau PRO ax device was the most efficient Wi-Fi solution, offering the highest quality and reliability of connectivity. This is an access point designed to provide uninterrupted connection, perfectly suited for home, office, and professional applications.

PoE - Power Supply Flexibility

MikroTik Chateau PRO ax H53UiG-5HaxQ2HaxQ offers **support for PoE and PoE-out power supply**, making it a highly versatile device that is easy to install anywhere. PoE-out can power additional network devices, e.g. IP cameras, without the need to run additional power cables. Thanks to this technology, **MikroTik Chateau PRO ax** is a solution that allows you to optimise network infrastructure, especially in offices and spaces with limited access to electrical sockets.

Unstoppable Processor Power

The device has been equipped with a **quad-core IPQ-8072A processor**, which ensures not only smooth operation, but also the ability to handle advanced features such as hardware IPsec encryption. This ARM processor operates at a frequency of **2208 MHz**, which allows for twice the data transfer speed of standard devices. As a result, MikroTik Chateau PRO ax works brilliantly as a **home media server**, providing smooth streaming of films or games.

USB 3.0 Port - Expanded Multimedia Options

The H53UiG-5HaxQ2HaxQ device is equipped with a USB 3.0 port, which gives you the option to connect an SSD drive or external storage. This makes it easy to **set up Chateau as a home media server** or store and share important files. In addition, the USB port enables various advanced container configurations and using USB as additional backup storage.

Gigabit Ethernet - Fast Wired Connectivity

MikroTik Chateau PRO ax H53UiG-5HaxQ2HaxQ has been equipped with **5 Gigabit Ethernet ports**, which provide a stable and fast wired connection. An additional port with **PoE-out** function allows other devices to be powered, which further increases the device's flexibility of use. Thanks to the Ethernet ports, MikroTik Chateau PRO ax provides maximum throughput for wired devices, which is invaluable in environments with a large number of users.

Chateau Pro ax (H53UiG-5HaxQ2HaxQ)
