Price: **75.23 zł** gross / 61.16 zł net

Manufacturer: MIKROTIK

Referention number: DNXXGKKLMRMLM

Product features

Power source	DC/PoE
Rack mounting	No
Power consumption (max)	17 W
Power consumption (typical)	7 W
Temperature sensor	Yes
Networking standards	IEEE 802.3af
Switch type	Managed
10G support	Yes
Flash memory	16 MB
DC input voltage	24 V
Operating temperature (T-T)	-40 - 70 °C
SFP+ module slots quantity	4
Processor frequency	800 MHz
Operating system installed	RouterOS
Power supply included	Yes
Power over Ethernet (PoE)	Yes
Internal memory	256 MB
Minimum RAM	256 MB
Processor model	98DX226S
Processor manufacturer	ARM
Built-in processor	Yes
Product colour	White

Power connector	DC-in jack
Basic switching RJ-45 Ethernet ports type	Gigabit Ethernet (10/100/1000)
Basic switching RJ-45 Ethernet ports quantity	1
Stackable	No

Full product description

New FiberBox Plus - a budget version of the amazing netFiber 9

The **FiberBox Plus** is a huge upgrade from previous FiberBox devices. This version is equipped with **a modern ARM processor, more RAM and four 10-gigabit SFP ports**. Fast and reliable connectivity at an affordable price. No Ethernet distance limitations. A **Gigabit Ethernet port** is also available for management or PoE-in power. **A 2-pin terminal and standard DC jack** are included, so you have 3 different power options to choose from. The FiberBox Plus supports a **wide input voltage range of 24-57V**. And it is extremely efficient: the maximum power consumption (without attachments) is only 7 W.

IP66 water resistance

The FiberBox Plus has a robust IP66 waterproof rating. This means protection from strong jets of water from any direction. So in a camping scenario, your setup is not only safe from all kinds of crazy weather, but can also withstand young pranksters with a garden hose. Not to mention damp basements, elevator shafts, seaport infrastructure, etc. With FiberBox Plus, you don't have to worry about a thing.
