Manufacturer: MIKROTIK

Referention number: DNXGGMLQMRMNL

Product features

Regulatory Approvals	CE, EAC, ROHS
Power source	mains electricity
Power consumption (max)	70 W
Console port	RJ-45
Switch type	Managed
Flash memory	32 MB
Operating temperature (T-T)	-20 – 60 °C
Rack mount kit	Yes
SFP+ module slots quantity	4
Processor frequency	650 MHz
Web-based management	Yes
Internal memory	128 MB
AC input frequency	47 Hz
AC input voltage	100 V
Built-in processor	Yes
Product colour	Grey
Access Control List (ACL)	Yes
Basic switching RJ-45 Ethernet ports type	Gigabit Ethernet (10/100/1000)
Basic switching RJ-45 Ethernet ports quantity	20

Full product description

Mikrotik CRS326-4C 20G 2Q RM is an advanced switch that will revolutionize your network!

Equipped with 20 2.5G Ethernet ports, 4 Combo ports (2.5G Ethernet / 10G SFP) and 2 40G QSFP slots , this switch provides incredible performance and flexibility. Ideal for enterprise, office and data center applications, the Mikrotik CRS326-4C 20G 2Q RM allows you to manage your network with ease and precision, meeting all the requirements of modern network infrastructures.

Unmatched performance of 2.5G Ethernet ports

The Mikrotik CRS326-4C 20G 2Q RM is equipped with 20 2.5G Ethernet ports that provide fast and stable network connections. Thanks to its high throughput, **the switch is ideal for data-intensive environments** such as offices, data centers and IoT installations. The performance and reliability of the Ethernet ports make **everyday networking tasks simpler and more efficient**.

Versatile 2.5G / 10G SFP combo ports

The CRS326-4C 20G 2Q RM switch is equipped with 4 combo ports that can operate as 2.5G Ethernet or 10G SFP . This solution provides flexibility and allows you to easily adapt your network to your changing needs. **You can quickly and seamlessly switch** between different connection types for maximum performance and flexibility.

Redundant power supplies and rugged chassis

The switch has two redundant AC power supplies, which **ensures reliability and continuity of operation** even if one of the power supplies fails. The robust 1U chassis suitable for mounting in a 19" rack makes installation and integration into existing infrastructure simple and convenient. This makes the Mikrotik CRS326-4C 20G 2Q RM an ideal choice for any professional network installation.
