Information:

MikroTik hAP ac³ is a high-performance dual-band Wi-Fi AC1200 home router with 5 Gigabit Ethernet ports, a quad-core processor and 256 MB RAM. The external high-gain antennas provide wide coverage and a stable signal throughout the home. Passive PoE support allows the device or other equipment to be powered, while the USB port and 128 MB of NAND memory increase its functionality. The router can be positioned vertically or horizontally, and the included kit makes wall mounting easy.
