Price: **250.92 zł** gross / 204.00 zł net

Manufacturer: MIKROTIK
Referention number: DNXGHJLKFRMLPH

Information:

Mikrotik hEX S (2025) is a reliable Ethernet router for home, office and small businesses, offering a fast and stable network connection. Equipped with 5 Gigabit Ethernet ports, it provides high throughput and convenient connection for multiple devices. The Ether5 port supports PoE-out, enabling power delivery to compatible equipment such as IP cameras or access points without additional cables. The SFP port up to 2.5G supports fast fibre links and future network expansion, while the USB 3.0 port increases configuration flexibility. The compact desktop enclosure and RouterOS system make installation and network management easier.

Product features

Output voltage	24 V
Wall mountable	Yes
Compliance certificates	CE
USB ports quantity	1
Networking standards	IEEE 802.3af
Ethernet LAN (RJ-45) ports	5
Flash memory	128 MB
DC-in jack	Yes
Operating temperature (T-T)	-40 - 70 °C
AC adapter included	Yes
Ethernet interface type	Gigabit Ethernet
Processor frequency	950 MHz
Output current	1.2 A
Operating system installed	RouterOS
Power over Ethernet (PoE)	Yes

Internal memory	512 MB
SFP module slots quantity	1
SIM card slot	No
Processor cores	2
USB version	3.2 Gen 1 (3.1 Gen 1)
Power source type	DC
Built-in processor	Yes
Product colour	Black
Internal memory type	DDR3
Ethernet WAN	Yes
DHCP client	No
SFP WAN	Yes
DSL WAN	No

Full product description

Mikrotik hEX S (2025) - Reliable Ethernet Router

Mikrotik hEX S (2025) is a **router** that combines functionality with reliability, providing fast and stable network connectivity for a variety of applications. With 5 **Gigabit Ethernet** ports and additional features such as **PoE** and **SFP**, the device becomes a versatile solution for the office, small business, or even more advanced applications. The compact desktop form factor and easy configuration with **RouterOS** make the Mikrotik hEX S a convenient choice for network management.

5 Gigabit Ethernet Ports

The Mikrotik hEX S (2025) is equipped with **5 gigabit Ethernet ports**, enabling fast network connections and high bandwidth. With these ports, you can connect devices such as computers, printers and switches, providing them with a stable connection. In addition, one of the ports supports PoE-out, allowing you to power other devices using the same Ethernet cable.

PoE Output - Powering Devices.

Mikrotik's hEX S (2025) router offers **PoE-out** on the **Ether5** port, allowing it to power devices such as IP cameras and access points without the need for additional power cables. PoE works in passive mode, offering power **up to 57 volts** for convenience and tidiness in installation. With this feature, the router not only acts as a network gateway, but also facilitates powering other devices on the network.

SFP - High Link Speed

The Mikrotik hEX S is equipped with an **SFP port** that supports speeds of up to **2.5G**, enabling the connection of faster fiber links and other bandwidth-hungry devices. The **SFP** is the perfect solution for companies that plan to expand their networks with fiber links, allowing for future-proofing their infrastructure. With this port, the device is fully ready to support higher transmission speeds.

USB - Flexibility and Convenience

The Mikrotik hEX S (2025) router has a **USB 3.0 port**, which provides the ability to connect external devices such as hard drives, USB modems or other accessories. **The USB** also enables the **Power Reset** function, which allows convenient management of connected devices. With this feature, the router gains additional flexibility in configuration, which is especially important in a dynamically changing network environment.

hEX S (E60iUGS)
