Price: **29.37 zł** gross / 23.88 zł net

Manufacturer: MIKROTIK

Referention number: DNXGGIIQJRMKJ

Product features

Operating temperature (T-T)	-40 - 70 °C
Connector gender	Male

Full product description

Mikrotik HGO-LTE-W: A handy IoT combo antenna for LTE and LoRa® frequencies.

No need to buy several antennas for your IoT setup - just pick up the new **HGO-LTE-W** antenna, which can handle an impressive spectrum of frequencies: **699MHz - 3.8GHz**. That's right - you can use the same antenna for **LTE, CAT-M/NB and LoRa®** connectivity.

The **HGO-LTE-W** antenna will transmit any signal provided by your modem. You can use this powerful 1.5-4 dBi antenna to communicate with all devices operating at 868 MHz and then transmit data to the cloud using LTE.
