Price: **576.57 zł** gross / 468.76 zł net

Manufacturer: MIKROTIK

Referention number: DNXXGKNKPDRMMIL

Information:

Mikrotik L23UGSR-5HaxD2HaxD-NM is a high-performance Wi-Fi 6 router providing fast, stable connectivity and good support for multiple devices at the same time. The durable IP66-rated housing protects against dust and water, making the device suitable for both indoor and outdoor use. The router offers a Gigabit Ethernet RJ45 port, an SFP slot with throughput of up to 2,5 Gb/s, and a miniPCIe slot for expansion with LTE and LoRa modules. It is a flexible and reliable solution for demanding users, businesses, and installations in harsh conditions.

Product features

Wireless standard	802.11a/n/ac/ax
Regulatory Approvals	CE, FCC, IC, EAC, ROHS
USB connector type	USB Type-A
Chipset	QCN-6102, IPQ-5010
Power consumption (max)	25 W
USB 2.0 ports quantity	1
Ethernet LAN (RJ-45) ports	1
Flash memory	256 MB
DC-in jack	Yes
Reset button	Yes
Processor frequency	800 MHz
Operating system installed	RouterOS
Power over Ethernet (PoE)	Yes
Internal memory	128 MB
Placement	Wall
SIM card slot	Yes

Built-in processor	Yes
Power over Ethernet (PoE) type supported	Passive PoE
SIM card type	NanoSIM
Product colour	Black
5 GHz	Yes
2.4 GHz	Yes
Operating system	RouterOS v7
I/O ports	SFP

Full product description

Mikrotik L23UGSR-5HaxD2HaxD-NM - an ideal choice if you are looking for a reliable and efficient Wi-Fi router.

With support for the latest [Wi-Fi 6](#) standard , this router provides exceptional connection speed and stability, meeting the requirements of even the most demanding users. The robust IP66-rated design makes the device weatherproof, making it ideal for both indoor and outdoor use.

Advanced Wi-Fi Standard 6

The Mikrotik L23UGSR-5HaxD2HaxD-NM router uses Wi-Fi 6 technology, which **offers higher speeds and efficiency** compared to previous standards. As a result, users can enjoy smooth streaming, online gaming and fast internet browsing without any lag. Wi-Fi 6 also provides better support for multiple devices at the same time, which is ideal in busy environments.

Rugged construction with IP66 protection rating

[Mikrotik router](#) is designed to work in harsh environments. The IP66-rated housing makes the device **dust- and water-resistant**, allowing it to be installed outdoors without worrying about weather damage. This makes the router an excellent choice for companies and institutions requiring reliable connectivity in a variety of environments.

Versatile connectivity

The L23UGSR-5HaxD2HaxD-NM router offers a variety of connectivity options, including **one Gigabit Ethernet RJ45 port and one SFP slot** that supports up to 2.5 Gbps throughput. In addition, the device has a **mini-PCle slot** that allows the addition of LTE and LoRa modules to enhance its functionality. These features make the Mikrotik L23UGSR-5HaxD2HaxD-NM a versatile solution that **can be customized to meet specific user needs**.
