Price: **953.95 zł** gross / 775.57 zł net

Manufacturer: MIKROTIK

Referention number: DNXXGGJMODRMMGN

Full product description

Reliable connectivity with MikroTik LHG LTE18 Kit.

MikroTik LHG LTE18 Kit (LHGGM

High performance and unmatched speed

Equipped with a **17 dBi** antenna with energy gain, the **MikroTik LHG LTE18 Kit** guarantees excellent connection quality. With one **Gigabit Ethernet 10/100/1000 Mbps PoE-in** port, you can enjoy fast data transfers, which sets this model apart from cheaper alternatives. The dual-core 88F3720 processor clocked at 800 MHz and 256 MB of RAM ensure smooth operation and fast network access.

Advanced LTE technologies

The maximum theoretical throughput on LTE cat.18 is an impressive **1.2 Gbps** on downloads and **150 Mbps** on uploads. The carrier aggregation function allows the use of multiple bands simultaneously, greatly improving performance in congested areas and areas with weaker signals. LTE Cat. 18 supports bands 1, 3, 5, 7, 8, 20, 28, 38, 40, 41, increasing its versatility.

Designed for outdoor use

MikroTik LHG LTE18 Kit is ideal for outdoor installation. Thanks to the directional antenna, the device should be pointed towards the nearest broadcasting station (BTS), which guarantees the best performance. The device can be powered by PoE in the 802.3af/at standard, and the kit includes a 24 V DC / 0.8 A power supply with a gigabit PoE injector and all necessary mounting accessories.
