Type	Bracket
Designation	General purpose

Full product description

Antenna mounting bracket for mounting the antenna on the facade or on the balcony

Robust steel bracket, which allows to mount the antenna both on the wall and on the railing. The use of galvanized steel ensures **resistance to corrosion** and other damage.

How to mount an antenna

The shape and size of the holder, i.e. 200 mm high, 150 mm arm length and 38 x 1.5 mm diameter, allow for easy attachment of the antenna **to a façade, wall or balcony**.
