Full product description

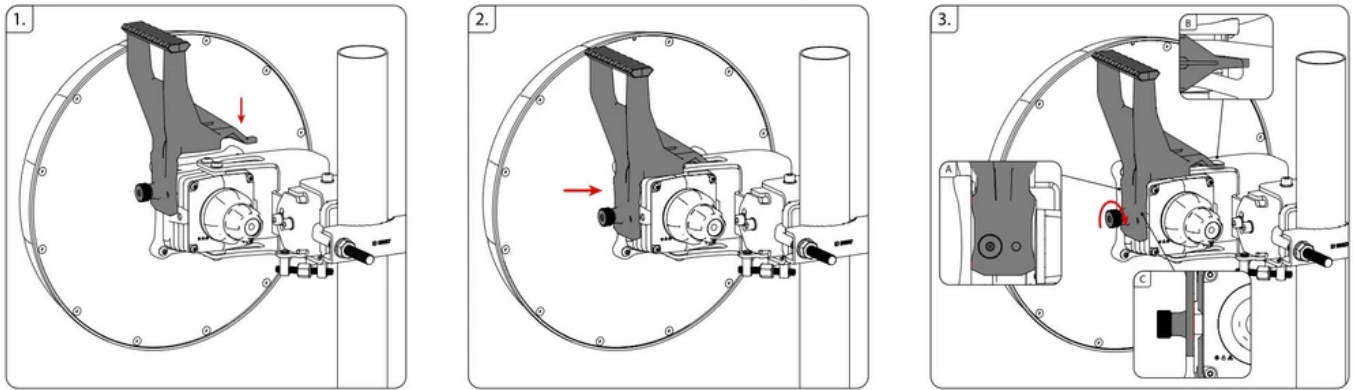

MikroTik nRayAIM-DH1

This mount is used for MikroTik Wireless nRAY antennas. With its help you can attach the aimer and align the direction of the nRAY.

Easy to install and configure

Installing the nRayAIM-DH1 on the Wireless Wire nRAY antenna is not difficult, just lay it on a flat back and tighten the screw on the side. The Wireless Wire nRAYs can be up to **1500 meters** apart, so the accuracy of their configuration is very important to us. MiktoTik created the nRayAIM-DH1 for exactly this task.

With the nRayAIM-DH1 you get excellent tuning accuracy and maximum Wireless Wire nRAY transmission speeds!
