Full product description

MicroTik quickMOUNT extra

MikroTik quickMount extra is an advanced wall mount bracket for larger directional and sector antennas. It can be used as an adapter from a large pole diameter to a smaller antenna mounting clamp size, quickMOUNT extra provides the ability to adjust the horizontal position of the antenna within 190°.

Mount compatible with heavy Mikrotik antennas

quickMOUNT extra is compatible with Mikrotik long-range heavy antennas such as the parabolic 30dBi mANT 30 or the sector antenna 19dBi mANT 19s. The bracket can be used to mount antennas on masts weighing up to 8kg. The adapter is very durable due to the special composite material it is made of - anvilNITE(TM).

The most important features:

- Cheap and easy to install
- Compatible with mANT, SXT, Omnitik, BaseBox, DynaDish and other mast-mountable devices.
- The mount is very durable thanks to a special material - anvilNITE (TM)
- Allows horizontal rotation of the antenna within 190°.
