Full product description

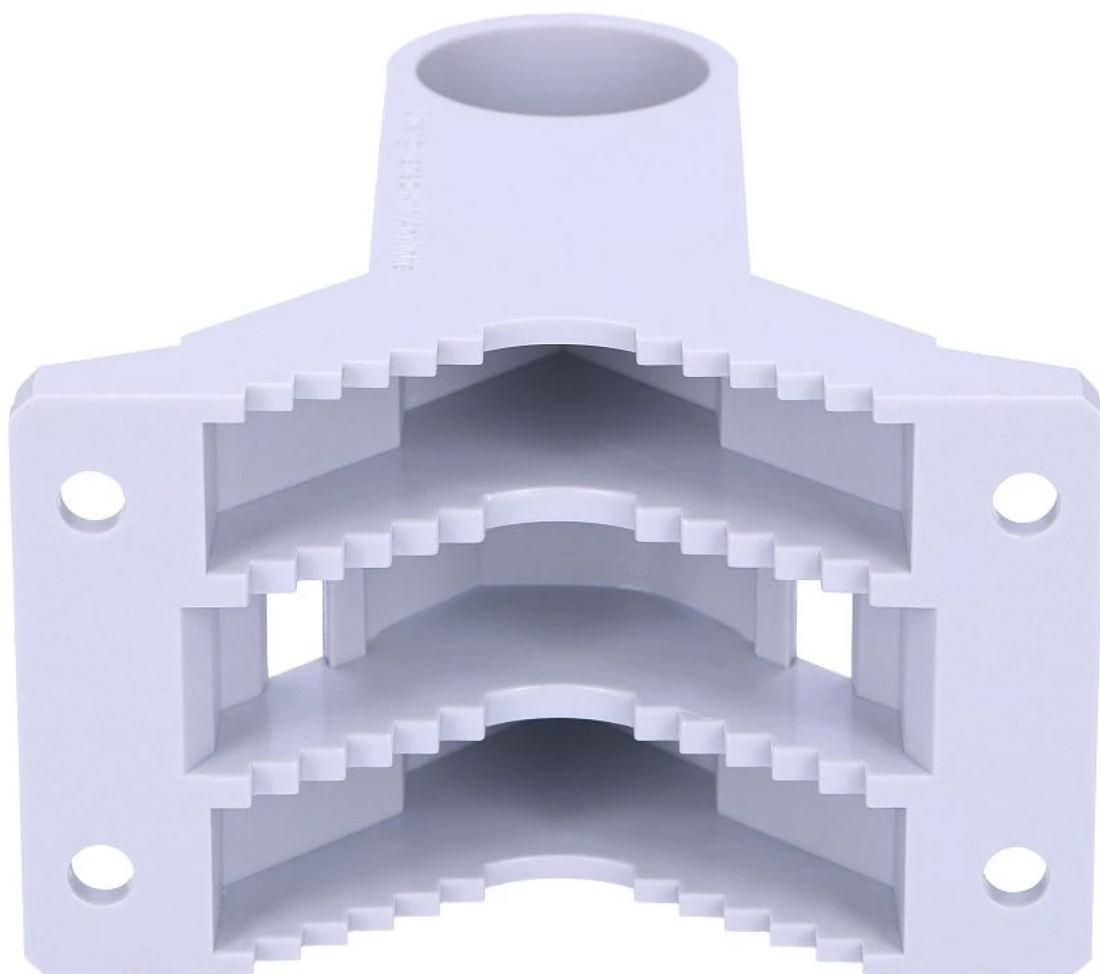

MikroTik quickMOUNT

MikroTik quickMOUNT is a mounting bracket designed for mounting small directional or sector antennas.

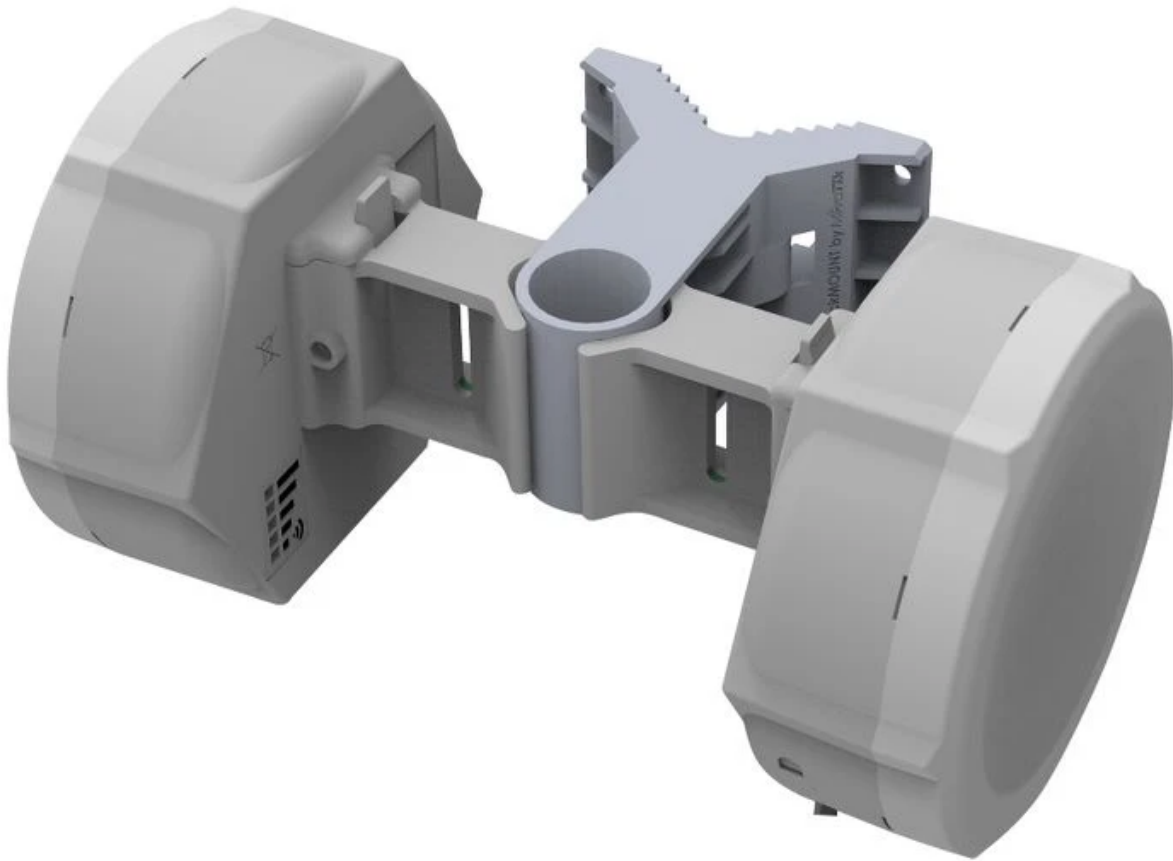

Multi-purpose holder

The bracket can be wall-mounted or can be used as an adapter from a large diameter pole to a smaller size antenna mounting clamp for reliable mounting. quickMOUNT gives the possibility to rotate the antenna **190°**.

Two devices can be mounted on one holder

The bracket allows to mount two **SXT** devices simultaneously. **quickMount** can be used to mount all antennas adapted for pole mounting with a weight not exceeding **1.5kg**.

The most important features:

- Angle of rotation: 190°
- Maximum diameter of the pole to which the antenna is mounted: 65 mm
- Maximum weight of the antenna: 1.5 kg
- Dimensions: 96x107.5x56 mm
- material of manufacture - anvilNITE
- It allows the installation of up to two SXT devices
- Supports SXT, Omnitik, BaseBox, NetBox and many other devices
