Full product description

MicroTik quickMOUNT-X mounting bracket

MikroTik quickMOUNT-X (QM-X) is a pole-mounted holder dedicated to the SXTsq and Disc 5 series MikroTik.

Made of durable and resistant material

MicroTik quickMOUNT-X can be mounted on a pole with a diameter of 30 to 60 mm. It is made of glass fibre reinforced nylon, it is lightweight and has a very simple design, so it does not cause problems during installation. It does not use small parts that can easily break down. QuickMOUNT-X allows you to adjust the angle of the device in the vertical and horizontal plane.

The most important features:

- Supports SXTsq, DiSC
- Made of durable and resistant material
- Maximum weight of the antenna: 2 kg
- The range of pole diameter to which the antenna can be mounted: 30-60 mm.
- The angle of inclination of the device in the vertical and horizontal plane.
