Full product description

MicroTik R11e-2HPnD

MikroTik RouterBoard R11e-2HPnD is a wireless **miniPCI-e** card with power up to **30dBm** (1000mW). The card works in **2.4GHz** band and **802.11b/g/n** standard, 2x2 MIMO offering transfer to **300mb/s**. Additionally, the card is equipped with a LED indicator indicating radio mode, connection status, TX and RX activity. The card is ideal for **RB912**, **RB800** series and **MiniPCle adapters - RB14e/RB14eU**.

The most important features:

- Connector 2x MMCX
- High performance with low power consumption
- Transmission speed up to 300 Mbps
- Output power up to 30 dBm, up to 1000mW
- 2.4GHz band in IEEE 802.11 b/g/n standard
