### Product features

|                             |              |
|-----------------------------|--------------|
| Height                      | 148 mm       |
| Output voltage              | 12 V         |
| LED indicators              | Yes          |
| Width                       | 444 mm       |
| Depth                       | 47 mm        |
| Cables included             | AC           |
| Power consumption (typical) | 25 W         |
| Harmonized System (HS) code | 85176990     |
| Networking standards        | IEEE 802.3af |
| Ethernet LAN (RJ-45) ports  | 13           |
| Operating temperature (T-T) | -40 to 70 °C |
| RS-232 ports                | 1            |
| Processor frequency         | 1400 MHz     |
| Operating system installed  | RouterOS     |
| SSD capacity                | 60 GB        |
| Number of SSDs installed    | 2            |
| Internal memory             | 60 GB        |
| Temperature monitoring      | Yes          |
| Voltage monitoring          | Yes          |
| Ethernet LAN                | Yes          |
| SIM card slot               | No           |
| Processor cores             | 4            |

|                               |                               |
|-------------------------------|-------------------------------|
| Processor model               | Annapurna Labs Alpine AL21400 |
| Power source type             | DC                            |
| Built-in processor            | Yes                           |
| Storage media                 | SSD                           |
| eSATA ports quantity          | 2                             |
| Product colour                | Silver                        |
| Ethernet WAN                  | No                            |
| 3G/4G USB modem compatibility | No                            |
| DSL WAN                       | No                            |

## Full product description

### Efficient device

**RB1100AHx4 Dude Edition** uses a new **four-core Cortex A15** chip. The chip is clocked at **1.4GHz**, which provides maximum throughput up to **7.5Gbit** additionally supports **IPsec** hardware acceleration and is faster than any other RouterBOARD device.

### Diversity for storage

The device has several quick connectors for storage (**two SATA and two M.2**) to use the Dude database, cache or other storage. It contains an M.2 drive with **60 GB** and comes with a Dude package that has already been installed for full functionality. The device has **two IEC** emergency power connectors, supports passive or 802.3at/af PoE input and has a DC telecommunications connector for **-48V DC**. It uses passive cooling.
