Price: **131.91 zł** gross / 107.24 zł net

Manufacturer: MIKROTIK

Referention number: DNXEDIJNJRMGMJ

Product features

Height	30 mm
Width	185 mm
Depth	85 mm
Connectivity technology	Wired
Networking standards	IEEE 802.3af
Ethernet LAN (RJ-45) ports	1
Ethernet interface type	Gigabit Ethernet
Fiber optic connector	SFP+
Fiber ports quantity	1
Power over Ethernet (PoE)	Yes
Product colour	White
Internal	No

Full product description

MicroTik RouterBoard Fiber to Copper Converter (RBFTC11)

MikroTik RouterBoard Fiber to Copper Converter (RBFTC11) is fiber optic converter. It converts fiber optic signal to transmission via Ethernet cable.

Weather-resistant housing

Unlike many other converters available on the market, the device has been equipped with a waterproof, screw-fastened casing adapted to various weather conditions for outdoor use. The device comes with a bracket for mounting on a wall, post or din rail.

Power supply via PoE

The converter supports **PoE 802.3af/at** (12-57V) power supply standard. RBFTC11 supports only Gigabit fiber optic transmission (1000Base-X) and Ethernet port (10/100/1000Mbps.) has automatic negotiation.

The most important features:

- Capacity - 10/100/1000 Mbit/s
- Input voltage - 12-57V
- Operating temperature from -40C +70C
- Communication standard - IEEE 802.3af
- Fibre optic connector - SFP
- Weather-resistant
