Price: **171.14 zł** gross / 139.14 zł net

Manufacturer: MIKROTIK

Referention number: DNXGFNPQFRMMOH

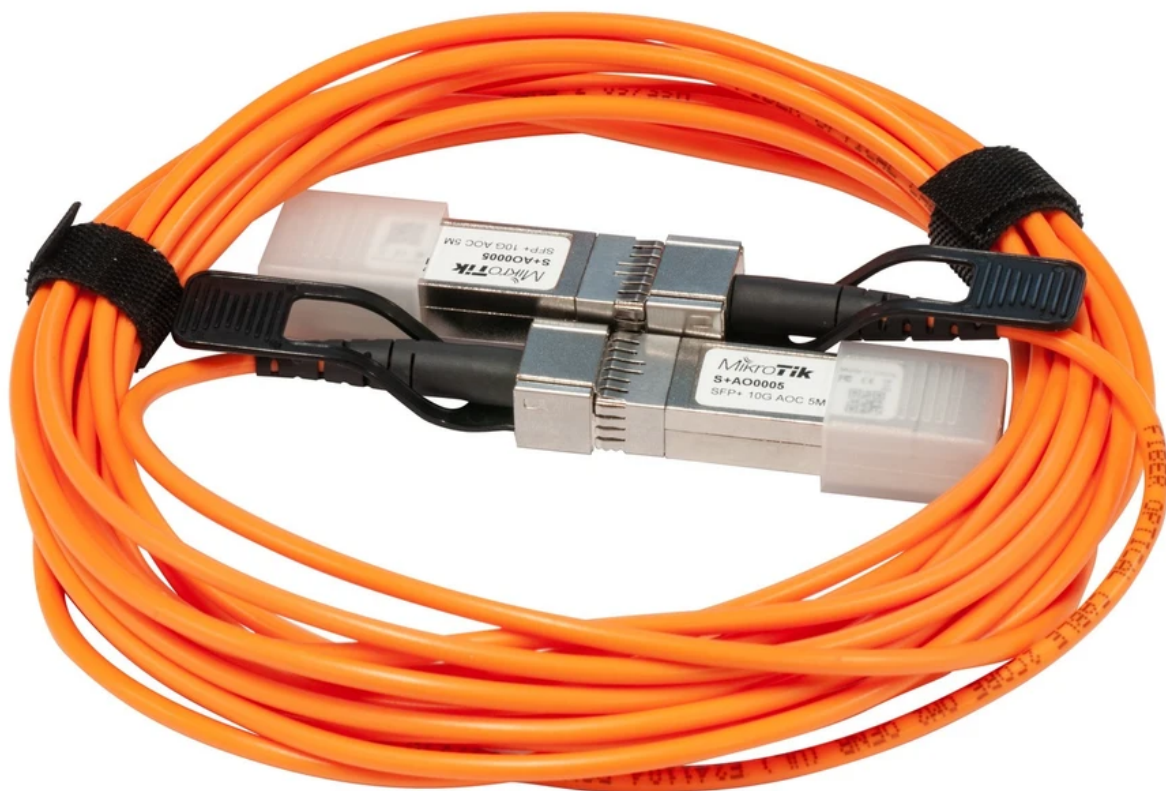

Product features

Data transfer rate	10 Gb/s
Harmonized System (HS) code	85447000
Cable length	5 m
Product colour	Orange
Connector 2 gender	Male
Connector 1 gender	Male
InfiniBand protocol	Yes

Full product description

MicroTik S+AO0005 DAC cable SFP+

Microtik Routerboard S+AO0005 is an active Direct Attach cable for direct connection of optics. It is a very economical way to connect two SFP/SFP+ devices for very short distances. The cable is used when the devices are located within one cable cabinet and there is no need for fiber optic inserts and patchcord. Ideal for connecting routers, switches and other devices within a rack. The cable length is 5m.

Can be connected to all MikroTika devices

The cable works with all MikroTika products with SFP and SFP+ ports, including new devices from RB4011 series (RB4011 series is not compatible with passive S+DA0001 and S+DA0003 direct mount cables).

The most important features:

- Data transfer rate up to 10 Gbit/s
- cable length
- SFP+ port type
