Full product description

Copper module MicroTik SFP RJ45 S-RJ01

MikroTik S-RJ01 is equipped with RJ45 **SFP** connector allowing to connect a copper Ethernet cable to the SFP socket. The SFP RJ45 insert offers a data transfer rate of **10/100/1000 Mbps** and a maximum range of **to 100 m**. It is compatible with most network devices with an SFP socket. The SFP RJ45 module is compatible with the EU **RoHS** directive. It can operate in the temperature range from 0°C to 85°C.

Special features

- Transmission speed up to 1.25 Gbps
- Range 100 m
- RJ45 connector
- Compliance with RoHS Directive
- Operating temperature from 0°C to 85°C
