Price: **335.79 zł** gross / 273.00 zł net

Manufacturer: MIKROTIK

Referention number: DNXXGOONDRMMKJ

Information:

MikroTik wAP ax is a modern Wi-Fi 6 AX3000 access point, providing a fast, stable and reliable connection at home, in the office and outdoors. The dual-core IPQ-5010/ARM processor and 256 MB RAM guarantee smooth operation and good VPN performance, even with many users. The device offers 2 Gigabit Ethernet ports, PoE-in or 24 V power supply, as well as operation in the 2.4 GHz and 5 GHz bands with a combined throughput of up to 2400 Mbit/s. The IP54 housing protects against dust and rain, and the included bracket makes mounting on a wall, pole, table or shelf easy.

Product features

Regulatory Approvals	CE, FCC, IC, EAC, ROHS
Product type	Tabletop router
Output voltage	12 V
USB charging port	No
Ethernet LAN interface type	Gigabit Ethernet
Ethernet LAN (RJ-45) ports	3
Flash memory	128 MB
Processor frequency	800 MHz
Internal memory	256 MB
Wi-Fi band	Dual-band (2.4 GHz / 5 GHz)
Wi-Fi standards	Wi-Fi 6 (802.11ax)
Ethernet LAN	Yes
Top Wi-Fi standard	Wi-Fi 6 (802.11ax)
Processor cores	2
Power source type	DC
Built-in processor	Yes

WLAN data transfer rate (first band)	574 Mb/s
WLAN data transfer rate (second band)	2400 Mb/s
WLAN data transfer rate (max)	2974 Mb/s

Full product description

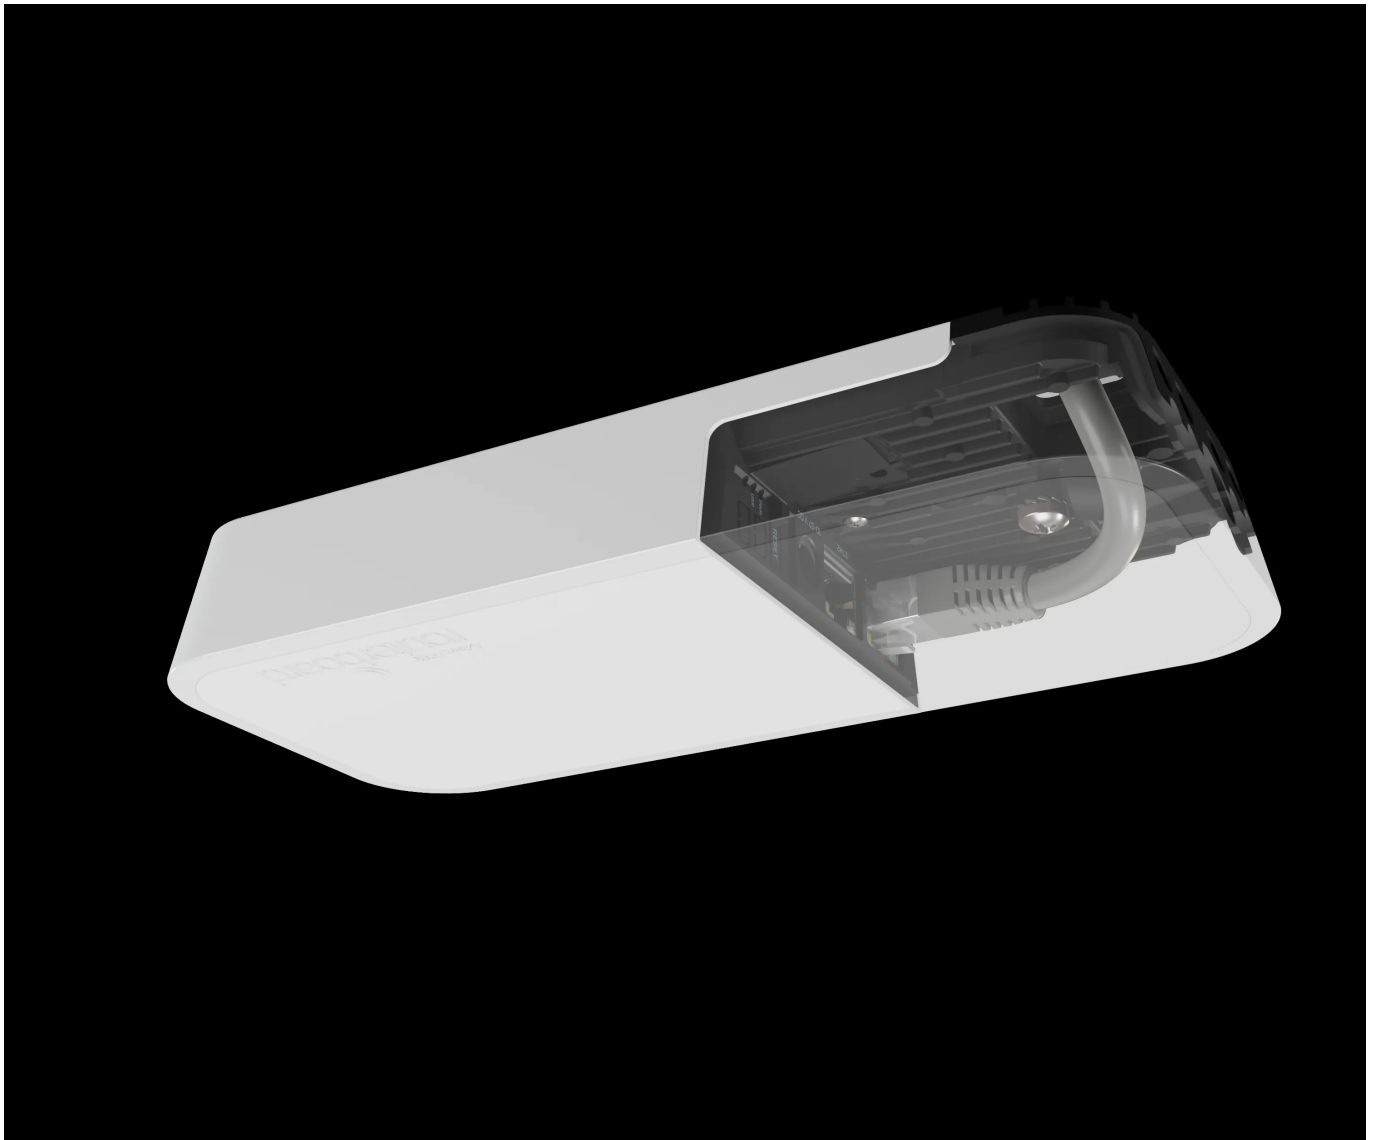

Access Point MikroTik wAP ax - wireless revolution in your home and office

MikroTik wAP ax is the latest Wi-Fi access point 6, designed to provide stable internet and excellent performance for both home and business. With support for the latest wireless technologies, the mikroTik wAP ax delivers a fast and reliable connection, regardless of the environment. Whether you need an access point for the office or for outdoor use, the MikroTik wAP ax is the ideal choice, offering much better connection quality than standard access points.

Excellent performance with Wi-Fi 6

The MikroTik wAP ax is an access point that uses **Wi-Fi 6** technology, offering a maximum theoretical throughput of AX3000. This means high-speed wireless connections even with multiple simultaneous users, with no lag or speed drops. **The dual-core IPQ-5010 processor** that powers this device provides **excellent VPN performance**, making the wAP ax ideal for more demanding work environments.

Access Point - stability and flexibility

The device is equipped with **2x Gigabit Ethernet ports**, which means it can support wired devices with high bandwidth. The MikroTik wAP ax also has support for PoE-in technology, which provides flexible power options and makes it easy to install in different locations. So you can power the access point either with a 24-volt power supply or using **passive PoE**, making installation extremely easy and convenient.

Mikrotik wAP - suited for tough conditions

The device's housing is designed for **outdoor** use , with an **IP54** rating, which means it can withstand various weather conditions such as rain and dust. As a result, the mikrotik wAP ax can be securely attached to any wall or pole, ensuring a stable connection both outdoors and indoors. In addition, the included stand will allow convenient mounting on a table or shelf, making the device fully suitable for use both at home and in the office.

Modern technology at your fingertips

MikroTik's wAPG-5HaxD2HaxD is equipped with a state-of-the-art **dual-core ARM processor** that runs on **RouterOS v7**. **256 MB of RAM** guarantees smooth operation even under heavy load, and 2x2 antennas ensure much better connection performance. Inside the chassis, you'll find all the necessary components to make the access point work smoothly and reliably in all conditions. Wireless connection in the **2.4 GHz and 5 GHz** range with a maximum throughput of up to 2400 Mbit/s guarantees high-speed Internet in every corner of the building.
