Full product description

MikroTik XQ BC0003-XS cable

MikroTik XQ BC0003-XS cable is a break-out cable is terminated with a **QSFP28** (100 Gbps) insert on one side and 4 **SFP28** (25 Gbps) inserts on the other. This solution allows multiple 25 Gigabit devices to be connected to the CRS504 or CCR2216. Thanks to the integrated SFP28 modules, connecting multiple devices becomes as easy as possible. The **cable length is 3 meters** - the ideal length to reach all the places you need while keeping the server room tidy.
