Product colour	Black
InfiniBand protocol	Yes
Connector gender	Male/Male

Full product description

MikroTik XQ DA0003 cable

The **MikroTik XQ DA0003** direct connection cable has integrated QSFP28 modules. The optical modules are used for high-speed (100Gbps) data exchange. The cable is 3 meters long - the perfect length to reach all necessary places, while keeping the server room tidy. The **XQ DA0003** cable is quite flexible - you can keep your devices separately or one on top of the other.
