Full product description

MIKROTIK XS+31LC10D SFP/SFP+/SFP28

Universal transceiver for three connection types: **SFP (1.25 Gbps)**, **SFP+ (10 Gbps)** and **SFP28 (25 Gbps)**. As a direct replacement for [the earlier SFP+](#) transceiver for 10 Gb/s. over distances up to 10 km, the XS+31LC10D gained more functionality but retained its previous price. Support for 25 Gbps data transmission (**SFP28**) has been added - allowing one module to be used in all installations. It is perfect for [CCR2004-1G-12S+2XS](#) router and any other multi-port devices.

Special features

- Transmission speeds of 1.25G SFP, 10G SFP+ and 25G SFP28
- Distance of 10 km
- Wavelength 1310 nm
- 2 UPC LC ports
- Single-mode transmission
