Information:

Momcozy NS005 XL is a set of 2 silver breast shells made from pure 999 silver, designed for breastfeeding mothers with irritation, soreness and cracked nipples. The perforated design improves breathability and reduces moisture, supporting the skin's natural regeneration. The ergonomic shape ensures a comfortable, discreet fit under clothing, while the polished edges increase wearing comfort. The XL size with a diameter of 55 mm is suitable for a larger nipple areola. The product is hypoallergenic, nickel-free, safe for the baby and does not affect the taste or smell of milk. An ideal choice for women seeking natural protection and relief without ointments.

Full product description

Momcozy NS005 XL - Silver breast shields for recovery and protection

The **Momcozy** NS005 product in the XL version is a high-quality therapeutic accessory, created with women in mind who experience discomfort during **breastfeeding**. These **shields** are made from pure **999 silver**, which has been valued for centuries for its natural soothing and regenerative properties. The **silver** material supports faster healing of irritation that may affect the **nipples** and **areola** after intensive feeding. The **NS005-NA03NB-A** model (available here in the enlarged XL variant) in a set containing **2 pcs** is essential support for every mother who cares about the health of her breasts.

Innovative design and breathability for your skin

The **Momcozy** brand model uses a unique surface perforation (Innovative Perforation Design), which significantly improves **breathability** and air circulation while wearing. Such a **design** helps **prevent** excessive sweating and a feeling of stuffiness, which speeds up tissue repair processes. The perforation edges are precisely polished to ensure complete **comfort and convenience**, eliminating the risk of scratching sensitive skin. Each **breast shield** is extremely lightweight, so prolonged use does not burden the delicate structure of the **nipple**.

Ergonomic shape and discreet fit of Momcozy shields

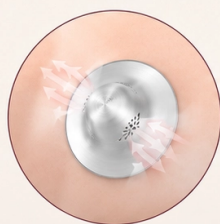

The brand's designers have ensured that each **breast shield** has an **ergonomic** Ergon Curve shape. As a result, the silver **Nursing Cup** fits the body perfectly, without putting excessive pressure on the tissues and without showing under clothing. The appropriate **XL size** with a diameter of **55mm** means that the **Shield** guarantees a natural appearance of the chest and fits a larger areola. By choosing the **Momcozy** product in this variant, every **mother** gains confidence that the **Silver** product is safe, nickel-free and hypoallergenic, which is crucial for sensitive skin.

Using the **Momcozy** brand product does not require additional balms or creams that could alter the taste of the milk. The **shields** made of **999 silver** themselves form a protective barrier, isolating sore areas from direct contact with clothing. After each use, they should be thoroughly cleaned and dried. Remember to measure the areola before purchase - the correct **size** is key to effectiveness. The **NS005-NA03NB-A** model in a set of **2 pcs** is an investment in **comfort** that allows you to enjoy closeness with your child without unnecessary pain.

Sprawdzony produkt od zaufanej marki

Choosing the right model, namely **NS005-NA03NB-A** in the XL version, guarantees that the **breast shield** will fully fulfil its protective role. The **silver** material is completely safe for the baby, as it contains no toxic substances and does not affect the smell or taste of the milk. The **ergonomic** shape with a diameter of **55mm** ensures stability, so the **Momcozy breasts** remain properly protected even during everyday activity. By investing in **999 silver** from **Momcozy**, every **mother** receives a top-class product that combines tradition with modernity.
