momcozy

Manufacturer: MOMCOZY

Referention number: DNKGJOIRLMNHQ

Information:

PureHug is a lightweight, ergonomic carrier that provides closeness, freedom of movement and comfort during walks and travel. Designed for children from 3 months of age up to 20 kg, it supports the natural "M" position, promoting the proper development of the hips and spine. Padded leg openings increase carrying comfort, while X-shaped shoulder straps and EVA foam lumbar support reduce strain on the parent's back. The breathable material helps maintain airflow and protects against overheating, especially on warm days.

Full product description

Closeness and freedom in every movement

The lightweight design of the PureHug carrier **makes everyday life easier**, allowing you to keep your hands free while walking or travelling. The ergonomic shape offers **a natural position for the child**, which directly contributes to their calmness and sense of security. Thanks to its thoughtful design, outings together become simpler and more comfortable for both parents.

Optimal support for a growing toddler

The adjustment system means the product **accompanies your child from 3 months of age** until they reach a weight of 20 kg. The design helps **maintain a healthy “M” position**, which is crucial for the proper development of the baby’s hips and spine. Padded leg openings help ensure proper circulation, eliminating pressure during longer carrying periods.

Relief for the back thanks to the X-type design

The use of X-shaped shoulder straps **distributes the child's weight evenly**, significantly reducing the strain on the parent's shoulders. The built-in **EVA foam lumbar support** stabilises the lower spine, helping to avoid discomfort even during hours of use. Adjustable elements ensure the carrier adapts to the body shape of every caregiver.

Thermal comfort on summer days

The special structure of the material **supports air circulation**, protecting the little one from overheating in high temperatures. The breathable fabric offers a pleasant cooling sensation, which is key during holiday trips and outdoor activities. The combination of **lightness and breathable fibres** makes every summer adventure fully comfortable.
