Full product description

Momcozy infant nasal aspirator - long-lasting battery life

The **Momcozy nasal aspirator** is designed to effectively remove secretions and make it easier for your toddler to breathe, offering **three levels of suction power** for different situations. Its long run time on a single charge, soft silicone tips and quiet operation make it a **practical device** that makes daily infant nasal care easier.

Effective nasal cleansing - three levels of suction power

Not every secretion requires the same suction force, which is why **Momcozy offers three levels of power**, allowing you to tailor the action to your baby's needs. **The maximum suction force of 65 kPa** allows you to quickly and effectively remove even thick mucus in one movement. It's a **convenient solution** that helps your baby breathe freely and sleep better.

Gentle lights and soothing melodies for baby's greater comfort

Babies often don't like to have their nose cleaned, so **Momcozy is equipped with 3 lighting modes** to attract the toddler's attention and help him calm down. In addition, **3 types of lullabies** create a pleasant atmosphere, making the procedure less stressful. **Soft light and music** make nasal cleansing easier for parents and baby.

Safe silicone tips - suitable for infants and older children

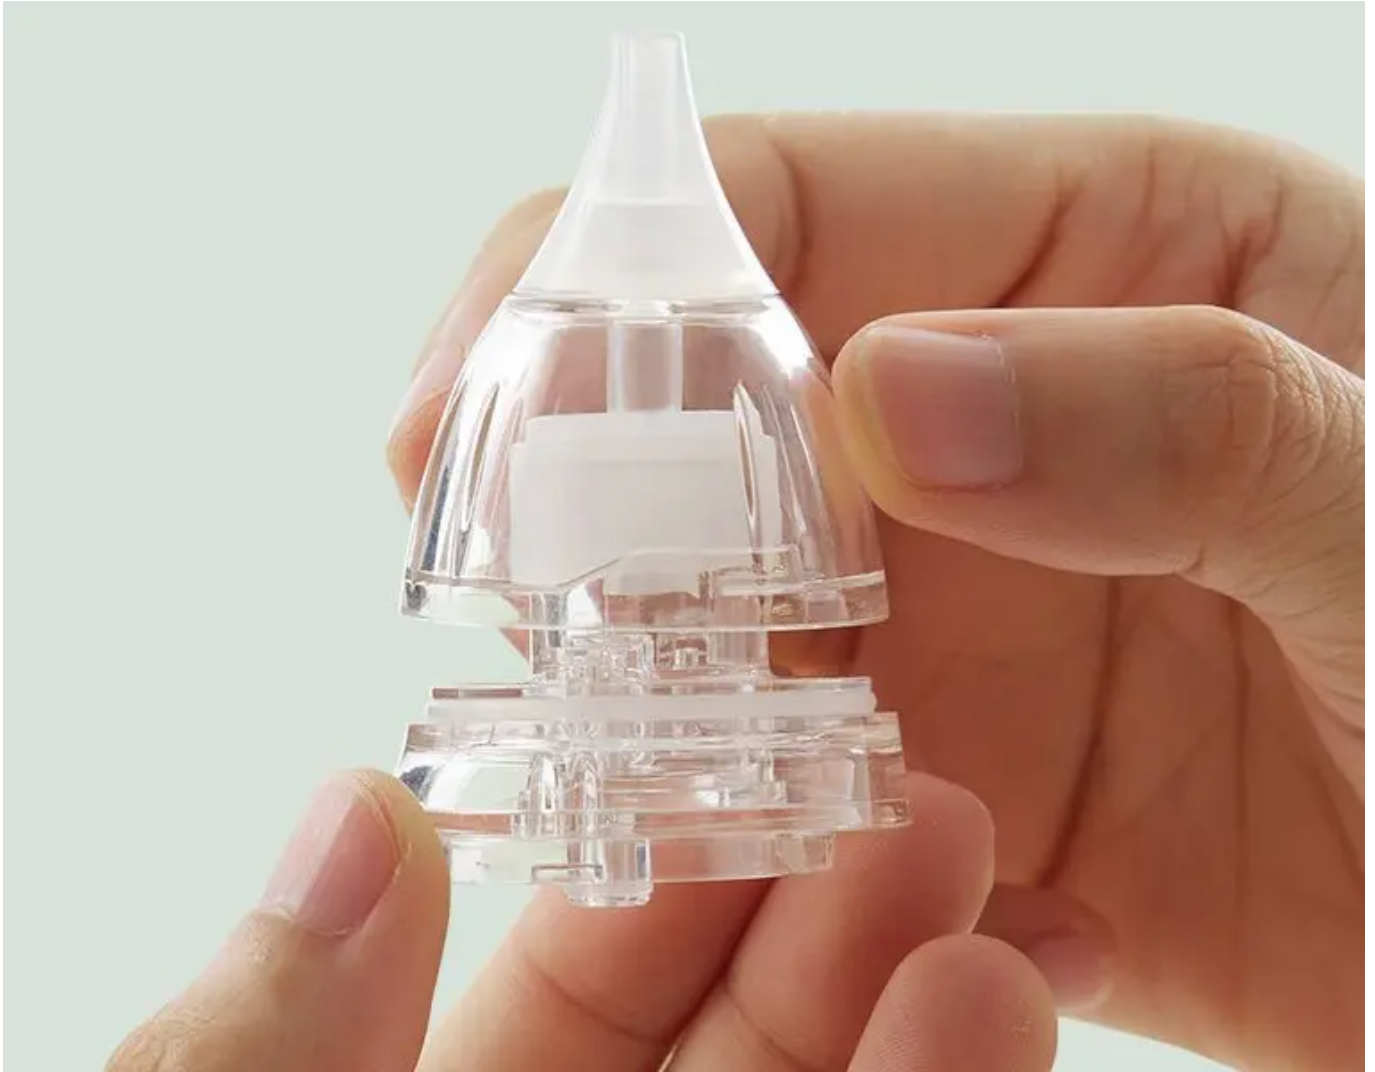

The aspirator comes with two silicone tips that can be adjusted to fit your baby's age and needs. The soft, **BPA-free material** is safe and gentle on mucous membranes, eliminating the risk of irritation. It's a **practical solution** that will work for both newborns and older children.

USB-C charging and long battery life

Forget about the need for frequent battery changes - Momcozy has a built-in battery that lasts for a long time when charged. **Charging with a**

USB-C cable makes it possible to charge the device at home, in the car or by connecting it to a powerbank. The long run time on a single charge saves time and provides convenience of use.

Contents of the kit
