momcozy

Manufacturer: MOMCOZY

Referention number: DNXGJOISIRMNGH

Information:

PureHug is a lightweight, ergonomic carrier that provides the child with a natural position and a sense of security, while giving parents comfort and free hands during walks and journeys. Thanks to its adjustability, it grows with your little one from 3 months of age up to 20 kg, supporting the healthy "M" position and the proper development of the hips and spine. Padded leg openings increase comfort, while the X-shaped shoulder straps and EVA foam lumbar support distribute weight evenly, relieving the back. The breathable material helps maintain thermal comfort even on hot days.

Full product description

Closeness and freedom in every movement

The lightweight design of the PureHug carrier **makes everyday life easier**, allowing you to keep your hands free during walks or trips. The ergonomic shape offers **a natural position for the child**, which directly contributes to their calmness and sense of security. Thanks to its well-thought-out construction, outings together become simpler and more comfortable for both parents.

Optimal support for a growing toddler

The adjustment system means the product **accompanies the child from 3 months of age** until they reach a weight of 20 kg. The design helps **maintain a healthy “M” position**, which is crucial for the proper development of the baby’s hips and spine. Padded leg openings help ensure proper circulation, eliminating pressure during longer carrying periods.

Relief for the back thanks to the X-type design

The use of X-shaped shoulder straps **distributes the child's weight evenly**, significantly reducing strain on the parent's shoulders. The built-in **EVA foam lumbar support** stabilises the lower spine, helping to avoid discomfort even with hours of use. Adjustable elements ensure the carrier adapts to the build of every carer.

Thermal comfort on summer days

The special material structure **supports air circulation**, protecting the little one from overheating in high temperatures. The breathable fabric offers a pleasant cooling sensation, which is key during holiday trips and outdoor activities. The combination of **lightness and breathable fibres** makes every summer adventure completely comfortable.
