momcozy

Manufacturer: MOMCOZY

Referention number: DNXGJOIPMRMHJ

Information:

Momcozy BN06 is an electric nasal aspirator for infants and children that effectively helps remove thick mucus and a runny nose, making breathing easier during a cold or allergy. It offers 9 suction levels with power of up to 70 kPa, so the intensity can be easily adjusted to the child's needs. Soft silicone tips and BPA-free materials ensure safety and comfort even for sensitive mucous membranes. The device is easy to dismantle and clean, and the parts that come into contact with secretions can be washed under running water or in the dishwasher. The built-in rechargeable battery charged via USB-C, together with the lightweight, compact design, means the aspirator is also ideal for travel.

Full product description

Momcozy BN06 - Electric nasal aspirator for children

Momcozy BN06 is a functional and efficient **nasal aspirator for children**, designed for quick and safe clearing of the airways in the youngest users. The device helps effectively **remove** thick **mucus** and accumulated secretions, making it easier to **breathe** freely during colds or allergies. This practical **nasal aspirator for babies** supports daily care, helping to ensure that the **baby** can rest peacefully and eat meals without the discomfort caused by a blocked nose. Stable operation and simple use make the product an essential item in the home first-aid kit.

Odsysanie klasy szpitalnej, Bez wprowadzania

Bezpiecznie oczyszcza zatkany nos z zewnątrz nozdrza

Adjustable suction power and child-friendly technology

The device design is based on an advanced vacuum-generating module, offering as many as **9 suction levels**. The maximum **suction power** reaches up to **70 kPa**, allowing even the most **persistent runny nose** to be removed. The implemented technology ensures that this **electric nasal aspirator** works with the right efficiency while remaining fully safe for the little one's delicate blood vessels. The varied operating modes allow the intensity of the treatment to be smoothly adjusted, so the nasal **mucosa** is not exposed to irritation and the whole process runs smoothly.

Miękkie światło nocne, łatwość użycia

3 opcje jasności / łatwe w użyciu w nocy

Safe BPA-free materials for complete protection

All parts of the device that come into direct contact with the child's body are made of soft, certified silicone. The design and the **secretions** container are completely **BPA-free** and free from other harmful chemical compounds. Every **newborn** and older **toddler** can have their **little nose** cleaned without concern about secondary infections or allergic reactions. The **gentle** material of the tips adapts to the anatomical shape of a small **nose**, eliminating hard edges and ensuring proper **comfort** throughout the suction process.

Wbudowane Delikatne Kołysanki

Uspokaja emocje dziecka podczas odsysania

Simple hygiene and easy cleaning under running water

Keeping the device clean is very simple, which is crucial in preventing recurring **respiratory tract** infections. The unit can be quickly **dismantled**, separating the tip and collection chamber from the motor section. All these parts can be thoroughly washed under **running water** or cleaned in the dishwasher, as these components are marked as Dishwasher Safe. Regular **hygiene** prevents deposits from building up and microorganisms from multiplying, ensuring that the **Momcozy nasal aspirator** is always sterile and ready for use again.

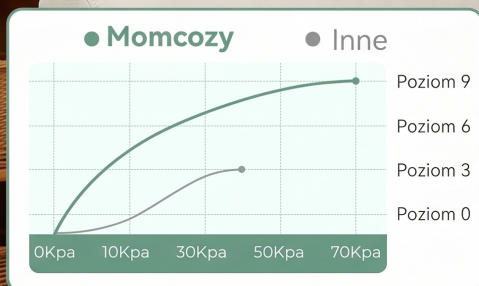

USB power and a handy, lightweight design

The device has a built-in rechargeable battery, eliminating the need to constantly replace batteries. The universal **USB** port (the set includes a Type-C cable) allows charging via a mains charger, power bank or laptop. The quick **charging** process makes the **aspirator** portable and ready to work in any conditions. In addition, the product is characterised by features such as a **lightweight design** and **compact size**, meaning it sits well in a parent's hand and makes it easier to operate the tip precisely, even when the child is moving.

Device type	Electric aspirator
Power adjustment	9 suction levels
Maximum vacuum	Up to 70 kPa
Tip material	Medical silicone (BPA-free)
Number of tips in the set	3 interchangeable tips in different shapes
Charging port	USB Type-C
Cleaning	Detachable parts, dishwasher safe

Naładuj raz, używaj przez miesiąc

Key benefits

- Efficient motor offering 9 suction levels with power up to 70 kPa, making it easier to remove thick mucus.
- Materials free from harmful BPA substances, ensuring complete safety for sensitive mucosa.
- Three interchangeable silicone tips shaped to suit the child's age and nasal anatomy.
- Simple disassembly of parts, making it easy to wash the collection chamber under running water or in the dishwasher.
- Battery power charged via a universal USB Type-C port, making it convenient to use while travelling.

The product is suitable for

- Parents looking for a stable and effective way to clear the airways in babies.
- People who want to replace manual suction devices with an efficient and repeatable electric device.
- Users who value accessories with a simple design that are easy to keep properly clean.
- Those looking for a lightweight travel device charged via a universal USB connection.
