momcozy

Manufacturer: MOMCOZY

Referention number: DNKGGOOPERMMMO

Information:

Momcozy M5 is a single, red breast pump designed for mothers who value comfort, discretion and convenience. It offers 9 suction levels and 3 operating modes: stimulation, expression and mixed, with a maximum strength of 270 mmHg, allowing the performance to be tailored to your needs. It is quiet, at below 50 dB, so it is also suitable for use at night. The 1200 mAh battery provides up to 120 minutes of operation and charges in 120 minutes. The parts that come into contact with milk are made from food-grade silicone and BPA-free materials, and the easy disassembly makes cleaning simple. The set includes different sizes of flanges and inserts, a 160 ml container, storage accessories, brushes and a USB-C cable.

Full product description

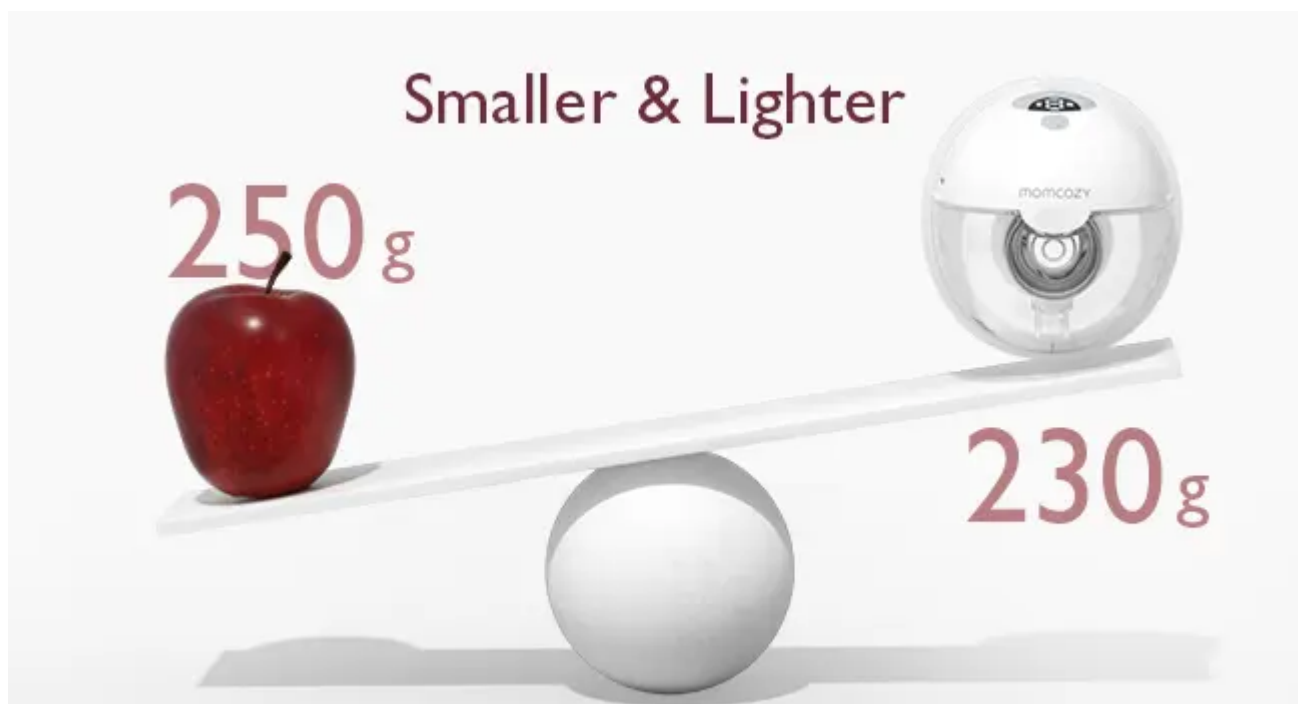

Momcozy M5 Single Red breast pump - comfort and convenience at all times

Every mom deserves comfort and efficiency while nursing, and **the Momcozy M5** breast pump provides exactly what you need. The Momcozy M5 breast pump in red is a device that allows you to express milk quickly and conveniently in any conditions. With its **adjustable suction power and smart features**, it is a product that will significantly facilitate the feeding process. The compact design and **ease of use** will make the breast pump an indispensable assistant in the daily life of every mother.

Adjustable suction intensity and modes of operation

The breast pump offers **9 levels of suction** and **3 modes: stimulation, expression and mixed**, which allows you to adjust the intensity of the suction to your needs. With such functionality, you can optimize the process of expressing milk depending on the moment. **The maximum suction force is 270 mmHg**, which ensures effective but comfortable pumping.

Silence and discretion

The breast pump operates with a noise level of less than **50 dB**, making it **quiet and discreet**. You can express milk in any situation without worrying about disturbing the quiet of your home or waking up your baby. This feature makes the breast pump **ideal for overnight use**.

Long working time and fast charging

The breast pump is equipped with a **1200 mAh battery** that provides 120 minutes of operation on a single charge, which is enough for **3-4 sessions** of pumping milk. The charging time is only 120 minutes, so you can quickly use the breast pump again. This solution works well in situations where you need to express milk **quickly and efficiently**.

Safe materials and easy to clean

All parts that come into contact with milk are made of **food-safe silicone** and **BPA-free materials**, ensuring complete safety and hygiene. The breast pump is easily disassembled, making it easy to clean. A **cleaning brush** is included, making it even easier to take care of the device's hygiene.
