momcozy

Manufacturer: MOMCOZY

Referention number: DNXXGOMLRMMMPK

Information:

Momcozy M5 is a single breast pump in grey, designed for convenient and efficient milk expression at home and on the go. It offers 9 suction levels and 3 operating modes: stimulation, expression and mixed, with a maximum suction strength of 270 mmHg, so you can easily adjust it to your needs. It is quiet, operating below 50 dB, so it is also suitable for night-time use. The 1200 mAh battery provides up to 120 minutes of operation, and charging via USB-C takes only 120 minutes. The parts that come into contact with milk are made from food-grade silicone and BPA-free materials. Easy to disassemble and clean, with a practical set of accessories.

Full product description

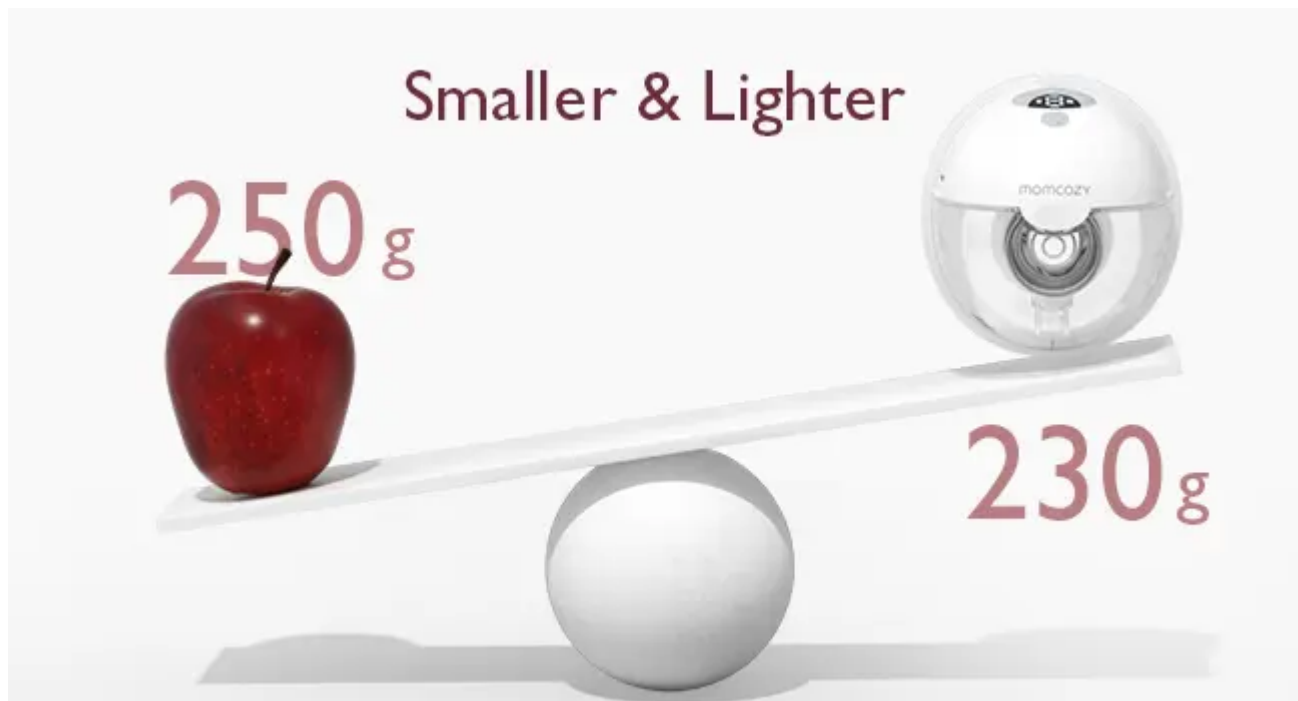

Momcozy M5 Single Breast Pump Grey - comfort and convenience at every moment

Every mother deserves comfort and efficiency during feeding, and the **Momcozy M5 breast pump** provides exactly what you need. The Momcozy M5 breast pump in grey is a device that enables quick and convenient milk expression in any conditions. Thanks to its **adjustable suction strength and intelligent functions**, this is a product that will significantly make feeding easier. Its compact design and **ease of use** make the breast pump an indispensable helper in every mother's daily life.

Adjustable suction intensity and operating modes

The breast pump offers **9 suction levels** and **3 operating modes: stimulation, expression and mixed**, allowing you to adjust the suction intensity to your own needs. With this functionality, you can optimise the milk expression process depending on the moment. **The maximum suction strength is 270 mmHg**, ensuring efficient yet comfortable milk expression.

Quiet and discreet

The breast pump operates at a noise level below **50 dB**, making it **quiet and discreet**. You can express milk in any situation without worrying about disturbing the peace at home or waking the baby. Thanks to this feature, the breast pump becomes an **ideal solution for night-time use**.

Long operating time and fast charging

The breast pump is equipped with a **1200 mAh battery**, which provides 120 minutes of use on a single charge, enough for **3-4 sessions** of milk expression. Charging time is only 120 minutes, so you can quickly use the breast pump again. This solution works well in situations where you need to **express milk quickly and efficiently**.

Safe materials and easy cleaning

All parts that come into contact with milk are made of **safe food-grade silicone** and **BPA-free materials**, ensuring complete safety and hygiene. The breast pump is easy to disassemble, which makes cleaning simpler. The set includes a **cleaning brush**, which further helps maintain the device's hygiene.
