Manufacturer: MOMCOZY

Referention number: DNXXGOOPJRMNHJ

Information:

The Momcozy M6 Single Breast Pump is a convenient and effective solution for mothers who value comfort and discretion. It offers 9 levels of suction strength, 3 operating modes: stimulation, expression and mixed, and a maximum suction of 300 mmHg, allowing it to be tailored to individual needs. The device operates quietly, at below 50 dB, making it suitable for use at home and away. The 1350 mAh battery provides up to 180 minutes of operation, and charging via USB-C takes only 150 minutes. The breast pump is made from safe food-grade silicone, is easy to disassemble and clean, and the set includes several sizes of inserts, a bag and the necessary accessories.

Full product description

Momcozy M6 Single Red breast pump - efficiency and convenience at all times

A breast pump is an indispensable device for every mom, which supports her in her daily life, allowing her to pump breast milk comfortably and quickly. **Momcozy M6 Single Grey breast pump** is a practical solution that combines functionality with modern design. Thanks to its **simple operation, adjustable suction power** and **convenient charging**, using this breast pump will become easy and convenient - even on the busiest days.

Adjustable suction power and modes

The Momcozy M6 breast pump offers **9 levels of suction intensity**, so you can adjust the suction to your individual needs and comfort. There are also **3 modes**: stimulation, expression and mixed to help you customize the pumping process according to your preferences. **The maximum suction force is 300 mmHg**, which ensures efficiency in pumping while maintaining comfort.

Silence and discretion

The breast pump operates with a noise level of less than **50 dB**, which means it is **extremely quiet** and discreet during use. This is an ideal feature if you want to express milk without disturbing your baby or other household members. You can use the breast pump in any situation

without worrying about the noise.

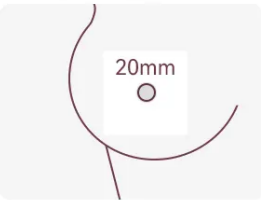

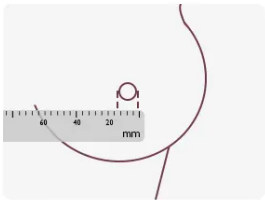

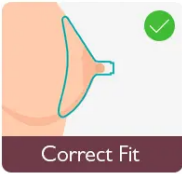

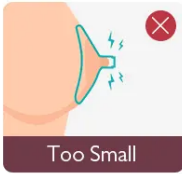

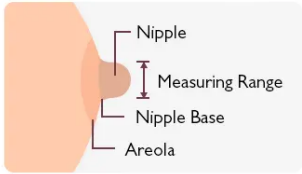

Long life and fast charging

The integrated **1350 mAh battery** provides **180 minutes of operation** on a single charge, which is enough for about 5-6 sessions of pumping milk. **The charging time is only 150 minutes**, making the device ready to work in a short time. This makes the breast pump a convenient solution that works both at home and on the go.

Choose The Correct Flange Size

Stimulate nipple until it perks up → Use a ruler or a nipple measure card to know your nipple size

Too Small

Correct Fit

Too Large

Nipple Size	Flange Size
8-10mm	15mm
11-13mm	17mm
14-16mm	19mm
17-19mm	21mm
20-22mm	24mm
23-25mm	27mm
26-28mm	30mm
29-31mm	32mm

Safe materials and easy to clean

The breast pump is made of **safe materials**, such as **food grade silicon**, which provides full protection from harmful substances. The collar in the standard size of 24 mm perfectly adapts to the breast, ensuring the comfort of pumping. **The ease of disassembly and cleaning** makes taking care of the hygiene of the device quick and convenient.
