Full product description

Momcozy M9 Double Red breast pump - convenience and control in one device.

The Momcozy M9 Double breast pump is designed with comfort and efficiency in mind, offering the ability to express milk from both breasts simultaneously. With **an app-connected** feature, you have full control over your sessions and can monitor your progress at every stage. Efficiency, ease of use and the ability to adjust the intensity of the suction make using this breast pump a pleasure.

Double milk extraction

The Momcozy M9 **breast pump** allows you to **express breast milk from both breasts at the same time**, saving you valuable time. This makes the pumping process faster and more efficient, which any mom is sure to appreciate. **The increased efficiency** makes the breast pump especially useful for moms who want to maximize their time for rest or other responsibilities.

15 levels of suction and 3 modes of operation

The breast pump offers **15 levels of suction**, allowing you to fine-tune the intensity to suit your individual needs. There are also **3 modes**: stimulation, expression and mixed, which ensures maximum comfort in each stage of pumping. With these settings, the breast pump **adapts to mom's comfort**, ensuring comfort during each session.

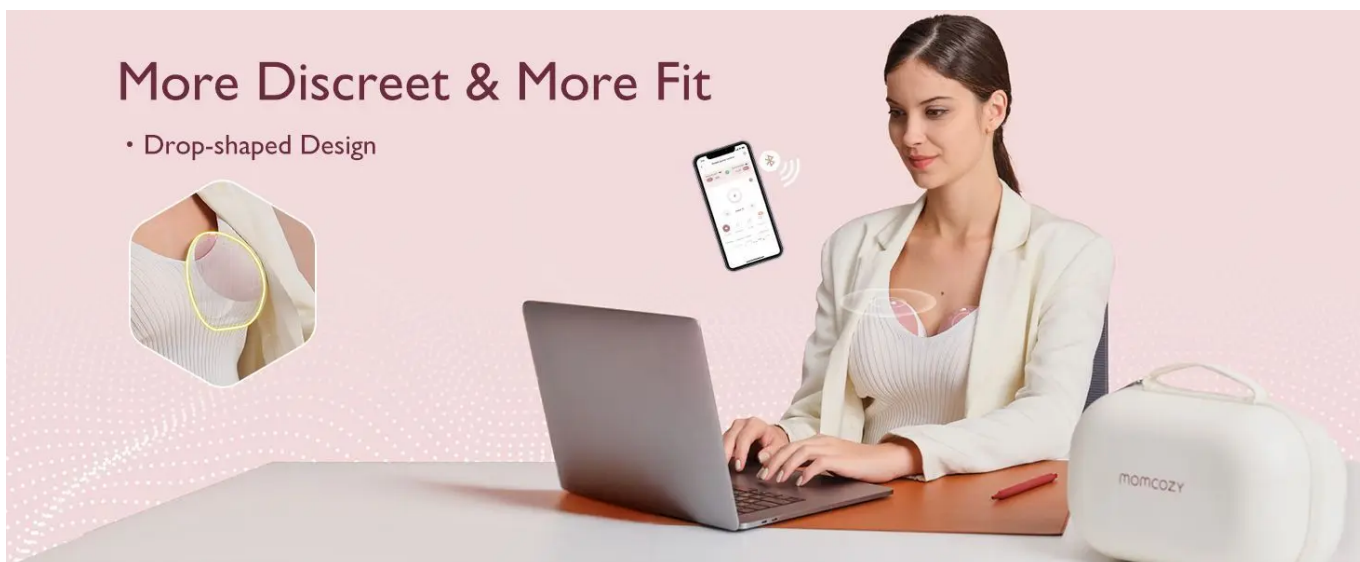

Monitoring and control application

The Momcozy M9 breast pump works with an app so you can **monitor and control your pumping sessions** in real time. The app allows you to view your pumping history, which gives you full control over the process and allows you to better organize your feedings. In addition, the breast pump sends **notifications and vibration alerts** when the bottles are overfilled, which prevents leaks and provides full convenience of use.

Long life and fast charging

The ultra-capacious **1800 mAh** battery provides **150 minutes of operation** on a single charge, which is enough for about **5-6 sessions of pumping milk**. Charging time of the breast pump is **150 minutes**, and thanks to the **USB-C** port, the charging process is fast and convenient. In addition, the **average battery life is 300 cycles**, making it a durable and reliable device for long-term use.
