momcozy

Manufacturer: MOMCOZY

Referention number: DNXGGPOIRMNGJ

Information:

Momcozy M9 is a single breast pump designed for mums who value convenience, effectiveness and modern control. It offers 15 suction levels and power of up to 300 mmHg, making it easy to adjust for stimulation and milk expression. Connection to the app allows you to monitor sessions, check the history, receive notifications about milk level and avoid overfilling. The 1800 mAh battery provides up to 150 minutes of use, and USB-C charging takes around 150 minutes. The DoubleFit™ flange and the included sizes ensure a comfortable fit, while the parts that come into contact with milk are made from safe food-grade silicone.

Full product description

Momcozy M9 Single Red breast pump - comfort and control in your hands

Breastfeeding is a special moment, but sometimes you need support that will enable you to pump breast milk comfortably and quickly. **The Momcozy M9 breast pump** is a device designed for moms who value **convenience, efficiency and modern technology**. With **an app that controls your sessions** and **numerous features to adjust the intensity**, this breast pump is sure to meet your expectations and make your daily routine easier.

Optimized suction power

The Momcozy M9 breast pump offers **15 levels of suction** that you can adjust to your individual needs. This allows you to find **the most comfortable intensity level** that is suitable for both stimulation and breastmilk expression. The maximum **suction force is 300 mmHg**, which guarantees effective pumping while maintaining comfort.

Control by application

The **Momcozy M9 breast pump** connects to an app, allowing you to **monitor and control your sessions in real time**. You can track progress, check your pumping history, and receive notifications about milk levels to avoid overfilling your bottle. **Vibrating reminders and in-app notifications** prevent leaks for added convenience and control.

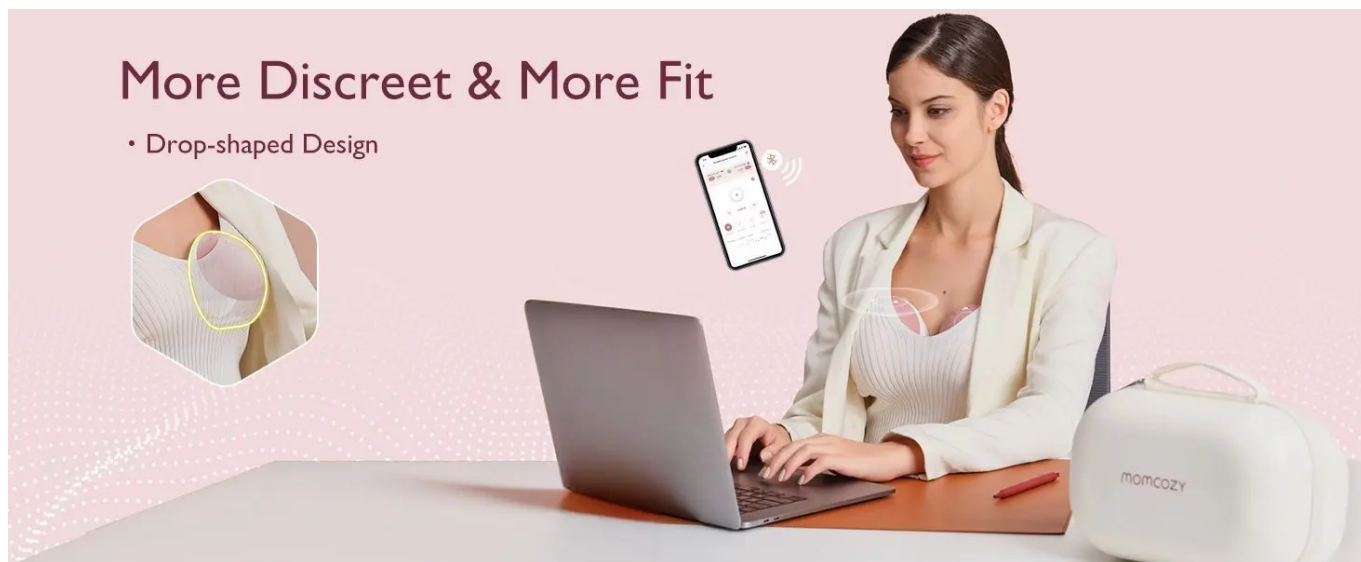

Long life and fast charging

The built-in **1800 mAh** battery allows for **150 minutes of use** on a single charge, which is equivalent to about 5-6 pumping sessions. **Charging via USB-C** takes just 150 minutes, and once fully charged, you're assured that the breast pump will be ready to use for a long time. This solution makes the breast pump **ideal for moms who move frequently**.

Safe materials and comfort

The breast pump features a **DoubleFit™ collar** that provides a comfortable and secure fit to the breast. Various collar sizes are included, including 24mm, so you can find the best fit. **All parts in contact with milk** are made of food-safe silicone, ensuring complete hygiene and safety.
