momcozy

Manufacturer: MOMCOZY

Referention number: DNXXGOMLERMMII

Information:

Momcozy S9 Pro is a double, wireless breast pump designed with convenience and effective milk expression in mind. It offers 9 intensity levels and 2 operating modes: stimulation and expression, while the maximum suction strength of 270 mmHg helps empty the breasts quickly and efficiently. Quiet operation below 50 dB allows discreet use even when the baby is asleep. The built-in 1600 mAh battery provides 6-8 sessions on a single charge, and USB-C charging takes around 2.5 hours. The parts that come into contact with milk are made from safe BPA-free food-grade silicone. The set includes practical accessories and inserts in several sizes, making fitting, hygiene and everyday use easier.

Full product description

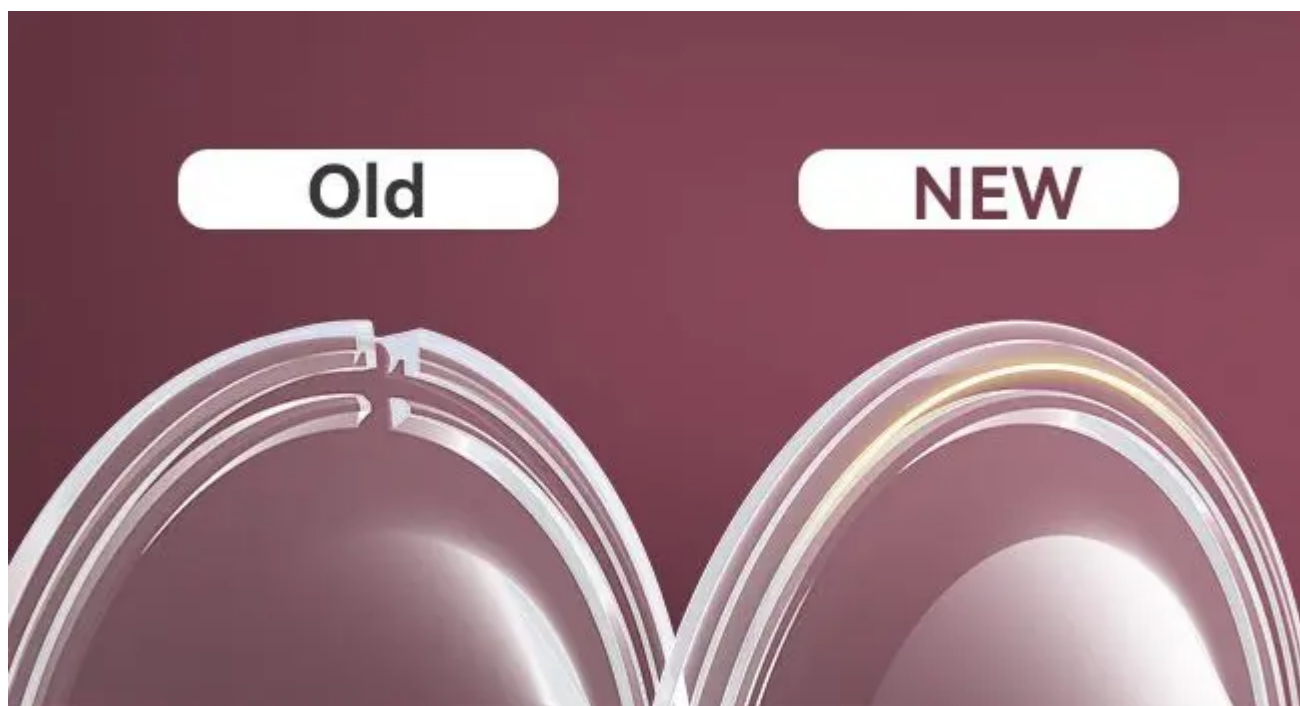

Momcozy S9 Pro Double Grey breast pump - comfort and efficiency in one.

Breastfeeding is a special time, but it requires support to make everyday tasks easier. **The Momcozy S9 Pro double breast pump** is designed to provide you with **efficiency, convenience and freedom** while pumping. With its compact design and quiet operation, you can use it anywhere without worrying about discomfort or noise.

Effective breast pumping

The Momcozy S9 Pro offers **9 levels of intensity** and **2 modes of operation**, so you can customize your breast pump's performance. **The stimulation mode** helps stimulate lactation, while **the pumping mode** effectively collects breastmilk, minimizing wastage. **The maximum suction force is 270 mmHg**, which allows you to empty the breast quickly and efficiently.

Quiet and discreet

With a noise level of less than **50 dB**, the Momcozy S9 Pro breast pump works quietly, allowing you to pump even while your baby sleeps. With **no cords and a comfortable fit**, you can use it during your daily activities - without restrictions. The LED display informs you about the power level and mode, providing convenient operation even at night.

Charging and long working time

The built-in **1600 mAh** battery allows for **6-8 pumping sessions on a single charge**. Charging via **USB Type C** takes **about 2.5 hours**, and automatic shutdown after **30 minutes** ensures safe use. This makes the breast pump mobile and ready to go in any situation.

Safe materials and easy cleaning

All parts that come in contact with milk are made of **safe food-grade**, BPA-free **silicone**. Disassembly and cleaning are easy, and additional accessories are included to help keep the breast pump clean. You'll find **a cleaning brush and milk storage bags** included for hygienic and convenient breastmilk storage.
