Full product description

More peaceful sleep and relaxation in one device

Momcozy's white noise LED lamp is a **multifunctional device** that promotes peaceful sleep for both babies and adults. With **34 types of soothing sounds** and **7 different light colors**, you can create an atmosphere conducive to relaxation and recovery. **App control and Alexa integration** allow you to conveniently manage the light's functions without getting out of bed.

Soothing sounds that help you fall asleep

The device offers **34 different sounds**, including white noise, nature sounds and relaxation melodies. These types of sounds help calm the body, minimize ambient noises and make it easier to fall asleep. The ability to choose from a variety of options allows you to customize the sound **for both children and adults**.

Adjustable light for better comfort

The lamp has **7 different colors of light**, which can be adjusted to the situation - from warm colors conducive to tranquility, to more intense colors to stimulate concentration. **The soft light does not glare into your eyes**, making it perfect as a bedside lamp for a child's room. You can also use it to create a relaxing atmosphere in the bedroom or as a gentle light during a nighttime feeding.

Convenient app and voice control

With **WiFi integration and Alexa voice control**, you can turn the light on, off or change settings without touching the device. Smart app control allows you to set schedules and adjust functions from your smartphone. You can operate the lamp from **anywhere in your home**, making it an extremely practical solution.

Wake-up function and automatic shut-off

The Momcozy LED light is equipped with **an alarm wake-up function**, so it can act as a smart **alarm** clock. An automatic shut-off after **30, 60 or 90 minutes** means you don't have to worry about turning the device off before bedtime. **An additional child lock** protects the settings from accidental changes, making the light safe for little ones.
