Full product description

ORVALDI KS universal inverters

ORVALDI KS3K Solar Sinus Inverter combines the functions of Inverter with UPS function, solar inverter and DC charger. It operates according to the programmed function: **Solar / Battery / Grid** - with full microprocessor control with always pure sine wave power to your devices. Multifunctional LCD display sued to read operating parameters or configure multiple predefined operating modes.

Key features of the Orvaldi KS3K Inverter

- Pure sine wave output
- Output power factor 1
- Selectable high-powered charging current
- Wide DC input range
- Selectable input voltage range for home appliances and personal computers
- Configurable AC / Solar input priority via LCD setting
- Compatible with mains voltage or generator voltage
- Auto-restart on return of mains power
- Overload and short circuit protection
- Smart charger design for optimal battery performance
- Cold start function
