Full product description

Orvaldi MKS5K Solar 5kVA/5kW

The **MKS** is equipped with an MPPT charge controller that maximizes and regulates the DC output power from the solar panel to charge the battery. **The transformerless design** provides reliable power conversion in a compact size. In addition, it can reliably handle motor loads such as refrigerators, motors, pumps, compressors and laser printers, as well as electronic loads such as TVs, computers, power tools and chargers.

Orvaldi MKS5K Solar 5kVA/5kW universal inverter operating according to programmed functions: Solar/Battery/Grid - equipped with an advanced MPPT tracking controller, it operates under full microprocessor control, providing pure sine wave power at all times.
