Price: **570.33 zł** gross / 463.68 zł net

Manufacturer: ORVALDI

Referention number: DNXGGJHMGRML0J

Product features

Height	145 mm
Width	100 mm
Depth	328 mm
Output power capacity	0.6 kVA
Battery capacity	7 Ah
Battery voltage	12 V
Input frequency	50 Hz
Output power	360 W
Input operation voltage (max)	240 V
Input operation voltage (min)	220 V
Product weight	5.2 g

Full product description

Orvaldi sinus 600 LCD - intelligent microprocessor control

This model is a small UPS with pure sine wave output for **computer protection with a demanding switching power supply and active PFC filter**; **ideal for powering CO stove pumps or fireplace pumps**.

The **Orvaldi Sinus 600 LCD** is an advanced UPS in **line-interactive** topology based on full microprocessor control. **Sinus 600 LCD** works with the **latest technology and high efficiency** to deliver pure sine wave to the protected loads both in mains and battery operation. This model stands out:

- The shape of the voltage at the UPS output,
- very quiet operation during battery mode

Thanks to these features, the versatility of application of this device serves a wide range of switching power supplies (passive PFC) . If we encounter a situation in which there is a break in the supply voltage, it can **immediately supply the energy stored in the batteries** without any interruption. The switching time to battery operation and vice versa is carried out within **2 to 10 ms** .

What are the characteristics of the Orvaldi Sinus 600 LCD?

- Provides pure sinusoidal output voltage shape,
- Excellent power protection for servers, gaming PCs and any load with active PFC filter,
- Boost and AVR for voltage stabilization,
- Three-stage charging optimizes battery performance,
- With built-in USB and RJ-45 communication port
