Full product description

UPS ORVALDI VT6K on-line 6kVA/5.4kW LCD

ORVALDI VT6K on-line 6kVA/5.4kW LCD UPS with internal battery for 5 minutes of emergency operation. With its double-conversion design, ORVALDI V on-line power supplies **can guarantee reliable and stable protection** for your sensitive equipment. The device can accept a wider input voltage, without using the energy stored in the batteries and **giving a pure stabilized sinusoidal output (230V +/- 1%)**. Orvaldi VT6K UPS is perfect to **protect your servers and critical loads** (eg, equipment used in medicine).

What are the characteristics of the ORVALDI VT6K on-line 6kVA/5.4kW UPS?

- True double-conversion on-line UPS
- DSP technology **guarantees high efficiency**
- Output power factor **0.9**
- Standard versions with built-in batteries and "L" versions for long runtimes to connect external batteries
- Adjustable **battery capacity from 16 to 20** batteries
- Adjustable charging current can be changed via LCD display or software (1A~6A)
- **Wide input voltage range** (110-300 VAC)
- Active input power factor correction 0.99
- **50Hz/60Hz** - Frequency converter mode
- **Emergency Power Off** (EPO) function
- 3-stage extended charging process for optimized battery performance
- **RS-232 and USB communication** as standard and optional **SNMP or AS400 card**
