Full product description

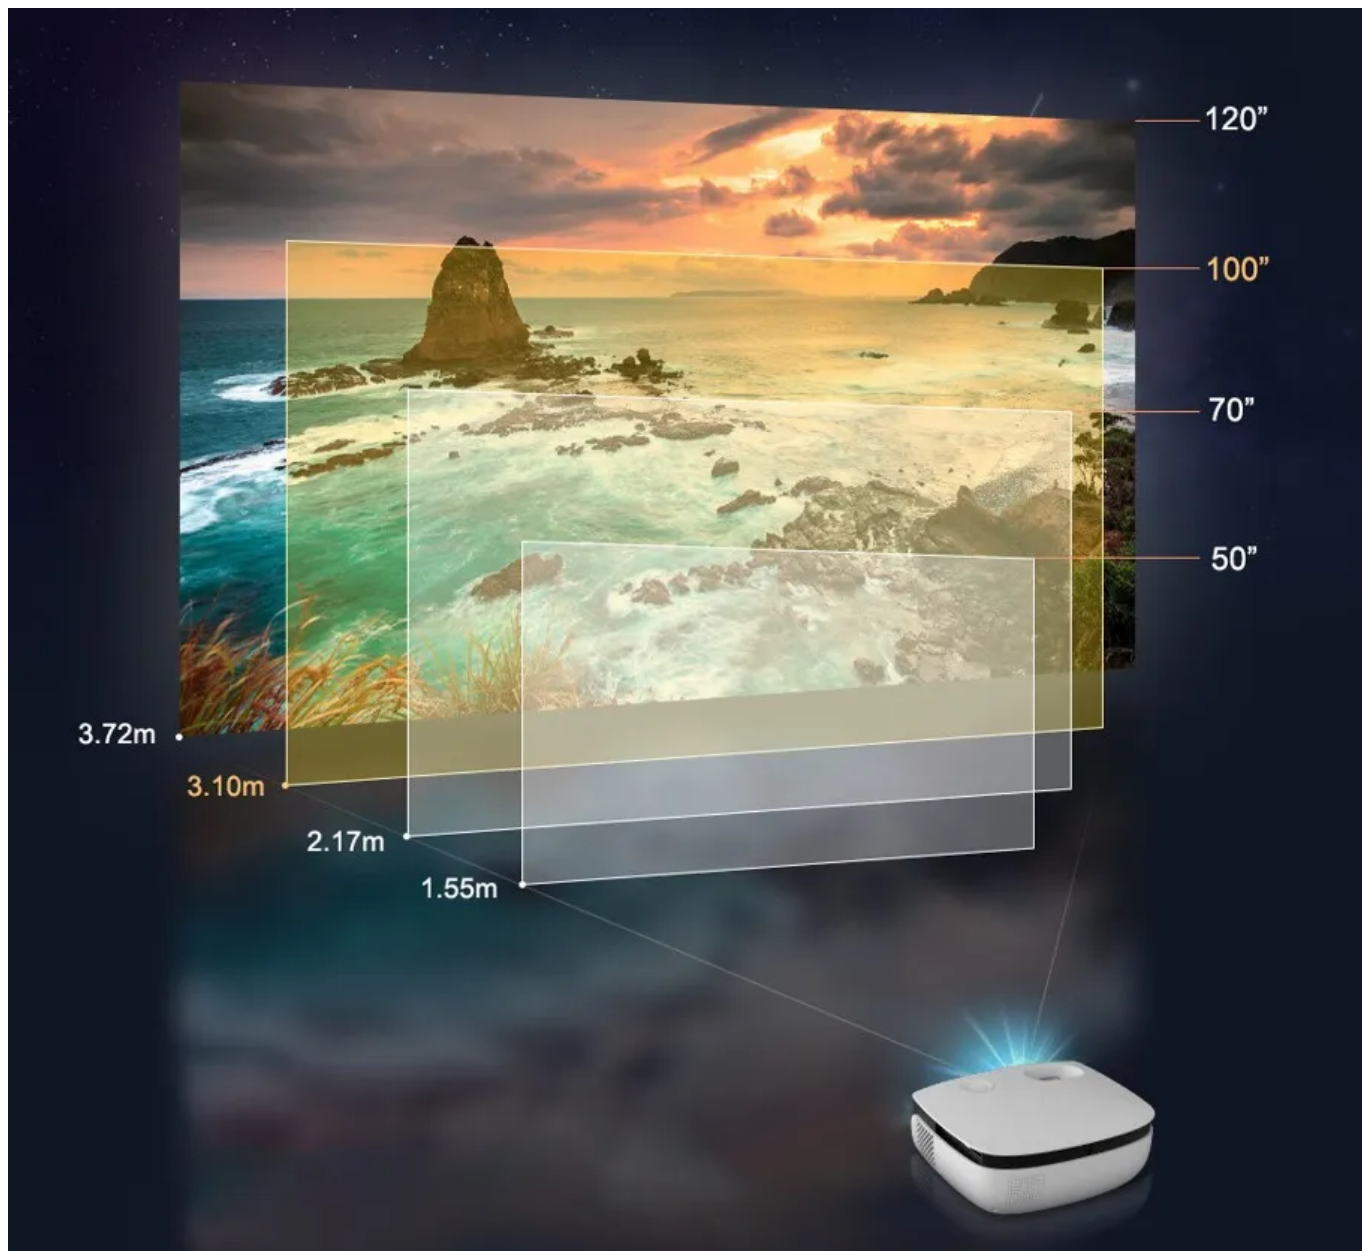

Exceptional image quality in your home

The Overmax Multipic 2.5 is a compact HD projector that supports a screen **up to 120 inches** and offers manual **Keystone** correction and 2,000 lumens brightness. With a long-lasting **LED** lamp (up to 50,000 hours), it delivers crisp images and is an ideal choice for home theaters. Includes remote control and HDMI cable, ready for immediate use out of the box.

State-of-the-art technology and exceptional image clarity

The Overmax Multipic 2.5 projector is a device that provides excellent clarity and natural color reproduction to give exceptional depth and plasticity to projected movies and photos. It uses **a 3.93' LCD display with a trinocular lens** to project images up to 120 inches, customized by adjusting the size.

Precision image correction for perfect geometry

The projector is equipped with **manual Keystone correction**, guaranteeing a perfectly rectangular image regardless of the viewing angle. Balanced parameters, such as **2000 lumens brightness** and **1500:1 contrast ratio**, as well as a long-life LED lamp, ensure exceptional performance and durability.

Multifunctionality and versatility

The projector supports a variety of video and photo formats, such as **MPEG4, DivX, Xvid, AVI, WMA, MP3, JPEG, BMP, PNG, MOV**, allowing you to play content directly from **USB** memory devices. It can also act as a replacement for a computer screen, making it versatile for home and business applications.

Excellent image quality and ease of use

The projector supports a Full **HD** resolution of **1920x1080p**, providing the highest image quality and detail. A quiet and efficient cooling system is used, ensuring trouble-free and quiet operation. The menu and user manual are available in Polish, making it easy to use the device.

Compact and practical design

With its compact size and light weight, the **Multipic 2.5** is one of the smallest projectors with such **advanced features**. Equipped with tripod mounts, it provides the ability to be easily placed anywhere for ultimate convenience.
