Price: **649.00 zł** gross / 527.64 zł net

Referention number: DNXXGKPMRMMNL

Product features

Projector brightness	3500 Lumen LED
RMS rated power	6 W
Screen size compatibility	35 "
Service life of light source	50000 h

Full product description

Versatility and Mobility

The **Overmax Multipic 3.6** Multimedia Projector is the ideal device for both cinema screenings at home and outdoor shows in the garden. With its lightweight and practical design and convenient carrying handle, you can take it anywhere. Just place the projector 1.1-5 meters away from the screen, and the electronic zoom will adjust the image size to your needs, providing projection of up **to 150 inches**.

Unparalleled Connectivity

Preparing for a screening takes just a moment thanks to **Wi-Fi and Bluetooth** connectivity features. The Wi-Fi wireless connection allows you to stream images directly from your smartphone or computer, while Bluetooth allows you to connect a mouse or speaker. The built-in operating system supports **MS Office** formats, allowing you to play **presentations, text files and tables directly from the projector.**

Perfect Proportions and Exceptional Image Quality

Multipic 3.6 offers two aspect ratios - **16:9** and **4:3**, which can be adjusted to match the file or movie format, eliminating distortion. With electronic **4-point Keystone correction**, you are assured of perfectly aligned viewing angles. The **360°** image rotation enhances the display, ensuring perfect proportions on the big screen.

Durability and Quiet Operation

The **50-watt, 3,500-lumen** lamp has a life span of **up to 50,000 hours**, which translates to 17 years of daily use for 8 hours a day. This is an excellent alternative to a traditional TV, offering a long-lasting and cost-effective solution. An advanced cooling system with an anti-dust filter ensures quiet and efficient projector operation. Built-in stereo speakers eliminate the need for additional audio equipment, offering clear dialogue and deep music.
