Full product description

Immerse yourself in the world of cinema with the Overmax Multipic 4.2 projector, which provides Full HD images.

This projector that will provide you with a Full HD 1920 x 1080 image, and its brightness of 4500 lumens will make every detail visible even in a bright room. With its professional design and modern features, this multimedia projector is ideal for both home theater and business presentations.

Exceptional LED image quality

Overmax Multipic 4.2 offers Full HD 1920 x 1080 resolution, which guarantees clear and detailed images. Thanks to LED technology and a high contrast ratio of 2500:1, colors are vivid and realistic. The projector will give you the picture quality you expect, whether you're watching a movie, presentation or console game.

Multifunctionality and ease of use

This multimedia projector has a variety of connectors, including 2 x HDMI, 2 x USB and AV, allowing you to **easily connect various devices** such as a computer, consoles or player. Wi-Fi connectivity allows you to clone images from other devices wirelessly, which makes using the projector even more convenient.

High durability and modern features

The Overmax Multiplic 4.2 is equipped with an LED lamp with a **lifespan of up to 50,000 hours**, ensuring long-lasting use without frequent replacement. A cooling system with a dust filter ensures that the projector's operation will not interfere with the screening. In addition, electronic zoom and Keystone correction allow for perfect image alignment regardless of the projector's position.
