Full product description

Overmax Multipic 5.1 led projector - revolutionary equipment that will transform any room into a home theater

With Full HD 1080p resolution and 6,000 lumens of brightness, you can enjoy a sharp and bright image in any conditions. Equipped with **Android 9.0 and Wi-Fi connectivity**, the projector allows you to seamlessly access your favorite apps, such as Netflix and HBO, without connecting additional devices.

Exceptional image quality

The Overmax Multipic 5.1 projector displays images in [Full HD 1080p](#) resolution for incredible detail and sharpness. With a **brightness of 6000 lumens**, the image is clear even in well-lit rooms. The high contrast ratio of 4000:1 makes **colors vivid and realistic**, further enhancing the viewing experience.

Versatility and functionality

Thanks to the Android 9.0 operating system, the Overmax Multipic 5.1 projector allows you to **use a variety of applications without connecting a computer or smartphone**. Built-in Wi-Fi and Bluetooth provide easy connectivity to other devices. You can control the projector with the remote control, which makes it easy to use and extremely convenient.

Long life and quiet operation

The projector uses modern LED lamps with **a lifespan of up to 50,000 hours**, which means years of trouble-free use. In addition, the noise level of less than 25dB guarantees quiet operation of the device, without interfering with the viewing of movies or presentations. This makes the Overmax Multipic 5.1 a long-lasting piece of equipment that not only offers high image quality, but also reliability and durability.
