Full product description

Monitor Your Pet with Petcube Cam 360

Petcube Cam 360 is an innovative pet monitoring solution that allows you to track your pet at any time of the day or night. **Featuring a rotating camera** with a 105° viewing angle, **high-quality 1080p Full HD video transmission** and **8x digital zoom**, this camera provides clear images regardless of lighting conditions. With **a full 360° view** and vivid **1080p HD** video, you won't miss a moment or place in your home.

Control at Any Place and Any Time

With the **Petcube Cam 360 pet monitoring camera**, you can check what's going on at home from anywhere in the world. The camera features pan and tilt, which, combined with a 105° viewing angle and **advanced night vision**, allows you to monitor every nook and cranny. With **no blind spots** and uninterrupted 1080p HD video streaming, you're in full control of what's happening at home.

Two-way Audio

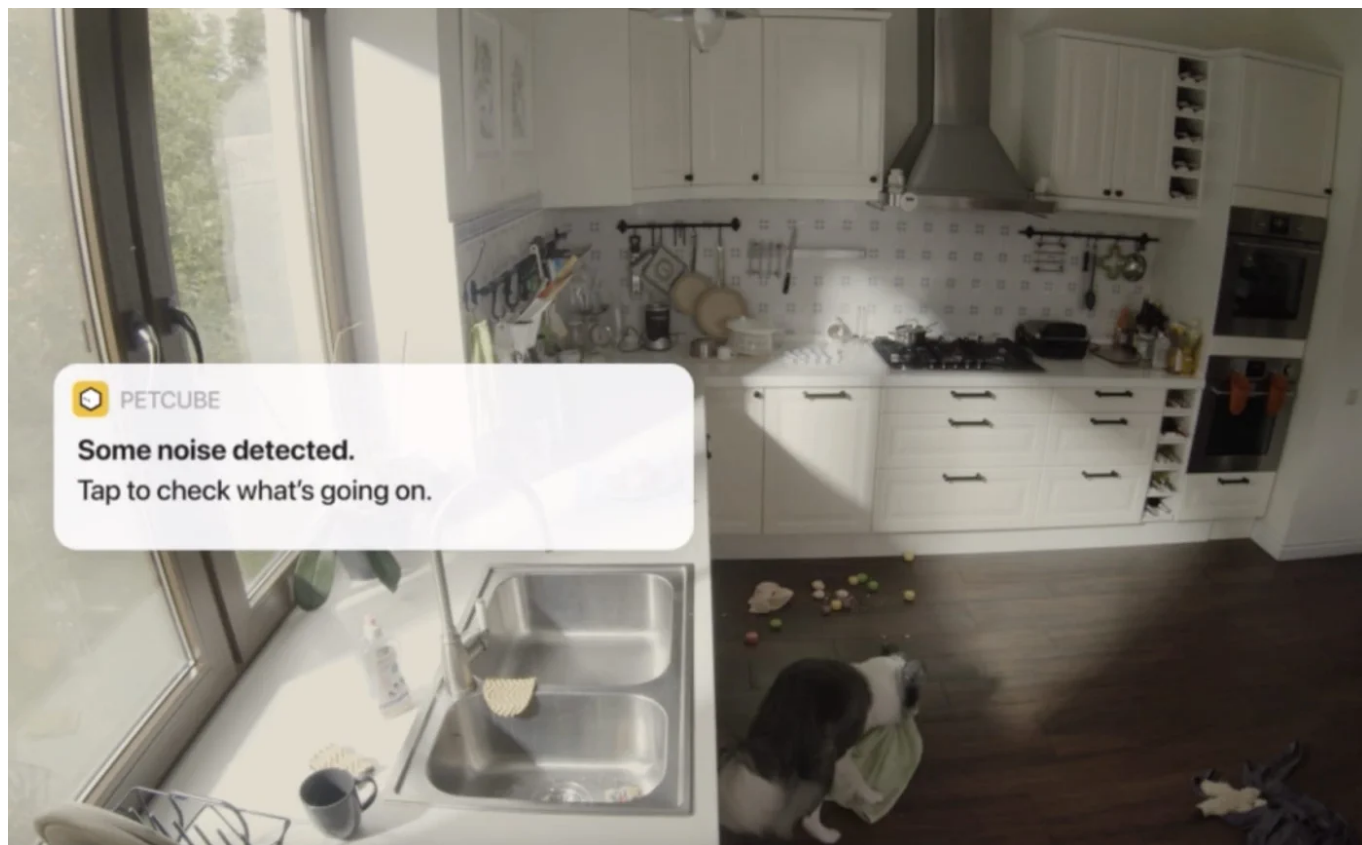

The **Petcube Cam 360 pet tracker** is equipped with crystal clear **two-way audio**, allowing you to communicate with your pet. You can reassure your pet by talking to it, and listen to its responses. This feature is ideal for alleviating separation anxiety and reinforcing positive behavior with audio feedback.

Privacy and Security

A state-of-the-art **privacy mode** feature and **advanced data encryption** ensure complete security and confidentiality. With simple **app** control, you can physically block the lens view whenever you need it. Advanced encryption ensures that your data is always safe.

AI and Real-Time Notifications

The Petcube Cam 360 offers **real-time notifications thanks to AI technology** that recognizes motion and sound. With **an optional Petcube Care subscription**, you'll get instant notifications of any activity in your home, whether human or pet. It's cutting-edge technology you can rely on to stay up to date.

Quick and Easy Installation

Installation of the Petcube Cam 360 is quick and easy, taking just a minute. All you need to do is download the **Petcube app**, plug the camera into an outlet and connect to a WiFi network. The camera only works with a 2.4GHz network (it does not support 5GHz WiFi), which ensures a stable and reliable connection.

Choose Petcube Cam 360 Today!

The Petcube Cam 360 is the perfect solution for any pet owner who wants to make sure their pets are safe and happy, no matter where they are. Invest in peace of mind and choose the Petcube Cam 360 today!
