Information:

Petcube Play 2 is an advanced interactive pet monitoring camera with a built-in laser, allowing you to see, hear and play with your pet from anywhere. It offers 1080p HD image quality with a wide 160° field of view, 4x digital zoom, night mode, and two-way audio with 4 microphones and a speaker. The laser can be controlled from your phone or set to automatic mode. The camera is easy to install, works with 2.4 and 5 GHz Wi-Fi, provides secure data encryption, and offers optional smart motion and sound notifications via Petcube Care.

Full product description

The Most Advanced Pet Monitoring Camera - Petcube Play 2

Petcube Play 2 is a state-of-the-art interactive pet camera with a **laser toy**. It allows you to see, talk and play with your pet no matter where you are. It's designed to provide the best remote experience, offering a **wide 160° viewing angle**, top-notch **two-way audio** and many other features that make it ideal for modern pet owners.

Unparalleled Picture and Sound Quality

The **Petcube Play 2 pet monitoring camera** offers amazing **1080p HD** video quality and **4x digital zoom**, so you can see your pet up close. It also features **night vision**, allowing you to monitor your pet even in the dark. **Two-way audio** with four microphones and a speaker ensures clarity of conversations, so you can hear and talk to your pet as if it were real.

Interactive Fun with Laser

The **built-in laser toy** is the perfect solution for entertaining your pet. **You can control the laser from your phone** or set the automatic mode to keep your pet entertained even in your absence. The Petcube Play 2 is the perfect pet monitoring camera for spending interactive time with your pet from a distance.

Easy Installation and Advanced Security

Installation of the Petcube Play 2 pet monitoring camera is extremely easy and takes just 60 seconds. The camera is compatible with **2.4GHz and 5GHz Wi-Fi** networks, as well as **iOS 11.4 and above** and **Android 8.10 and above**. The latest encryption methods ensure data security, using **TLS protocol with 128-bit encryption** and signed firmware updates. All data stored on the camera and in the cloud is protected according to industry best practices.

Intelligent Motion and Sound Notifications

With an **optional Petcube Care subscription**, you'll receive instant notifications of movement and sounds in your home. **Artificial intelligence-based** technology can recognize both people and pets, providing peace of mind and security.

Always Be Close to Your Pet

With the Petcube Play 2 you can check what your pet is doing, anytime and from anywhere. This camera is not only a monitoring tool, but also a way to stay in close contact with your pet, regardless of distance.

Peace of Mind and Close Contact with Your Puppy

Petcube Play 2 is a revolutionary pet monitoring camera that combines the highest quality video, audio and interactive features. It's ideal for anyone who wants to make sure their pet is safe and happy, even when they're away from home. Choose Petcube Play 2 and enjoy peace of mind and close contact with your pet every day.
