### Information:

The original Potensic 2230mAh intelligent battery for the Atom drone is a dedicated power source for the Atom series, providing up to 32 minutes of flight on a single charge. Thanks to intelligent technology, it offers safe and optimal energy management, supporting stable drone operation. It is ideal as a spare battery or a replacement for a worn-out battery. The set includes 1 Smart Flight Battery. Compatible only with Potensic Atom drones.

### Full product description

### Original Potensic 2230mAh smart battery for Atom drone

Extend the flight time of your Atom drone with Potensic's original 2230mAh smart battery. This dedicated battery is designed specifically for Atom series drones, providing up to 32 minutes of continuous flight on a single charge. The smart battery technology takes care of safety and optimal power management, and you get one Smart Flight Battery included, ideal as a backup power source or as a replacement for a dead battery. This battery is only compatible with Atom series drones.
