Information:

ATOM SE Fly More Combo is a lightweight, foldable drone under 249 g, ideal for travel and everyday use. It offers 4K/30 fps video recording and 12 MP photos with a Sony CMOS sensor, a wide 118° field of view, and ShakeVanish™ stabilisation for smooth, sharp footage. Transmission range reaches 4 km thanks to Pixsync 2.0™, and the 2500 mAh battery provides up to 31 minutes of flight. The SurgeFly™ system with three flight modes, speeds of up to 16 m/s, and a return-to-home function makes flying safe and dynamic, including indoors.

Product features

Type	Fly More Combo

Full product description

ATOM SE Fly More Combo - Always with You

Designed with mobility in mind, **the ATOM SE Fly More Combo** weighs **less than 249g** and can record **4K** video at **30 frames per second** and take **12MP** photos. Thanks to its foldable design, the drone can be easily stowed in a jacket pocket, making it the perfect companion for any trip. No matter where you go, the ATOM SE will be by your side.

Exceptional Image Quality

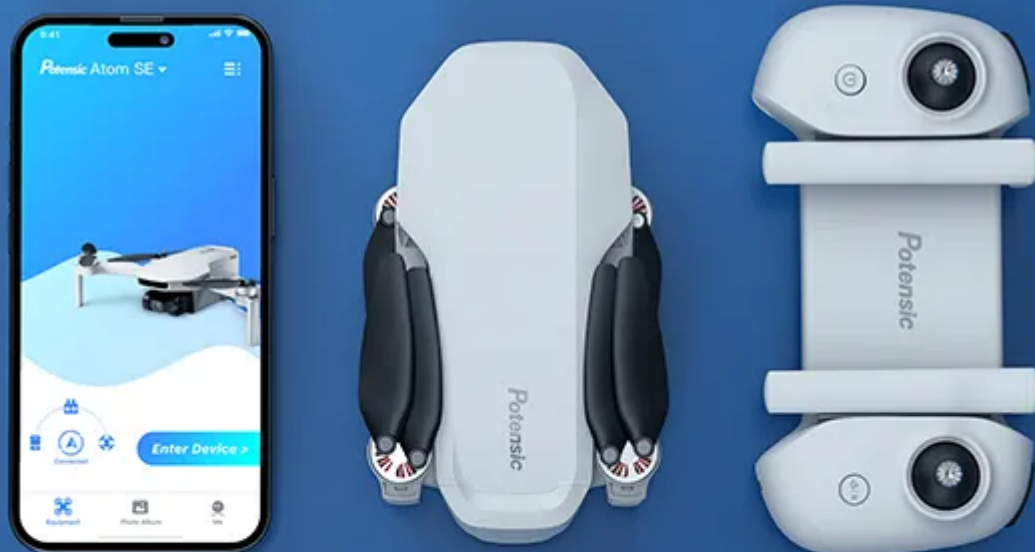

The **ATOM SE Fly More Combo** is equipped with a 4K HD camera with **ShakeVanish™** technology. With a 12MP **Sony CMOS** sensor, the drone can take **JPG** and **RAW** photos and record **4K/30fps** video. The **118°** angle of view and **20° to -90°** camera adjustment allow it to capture more details of the scene. The unique ShakeVanish™ electronic image stabilization technology ensures stable and smooth recordings, eliminating shake.

Compact and Efficient

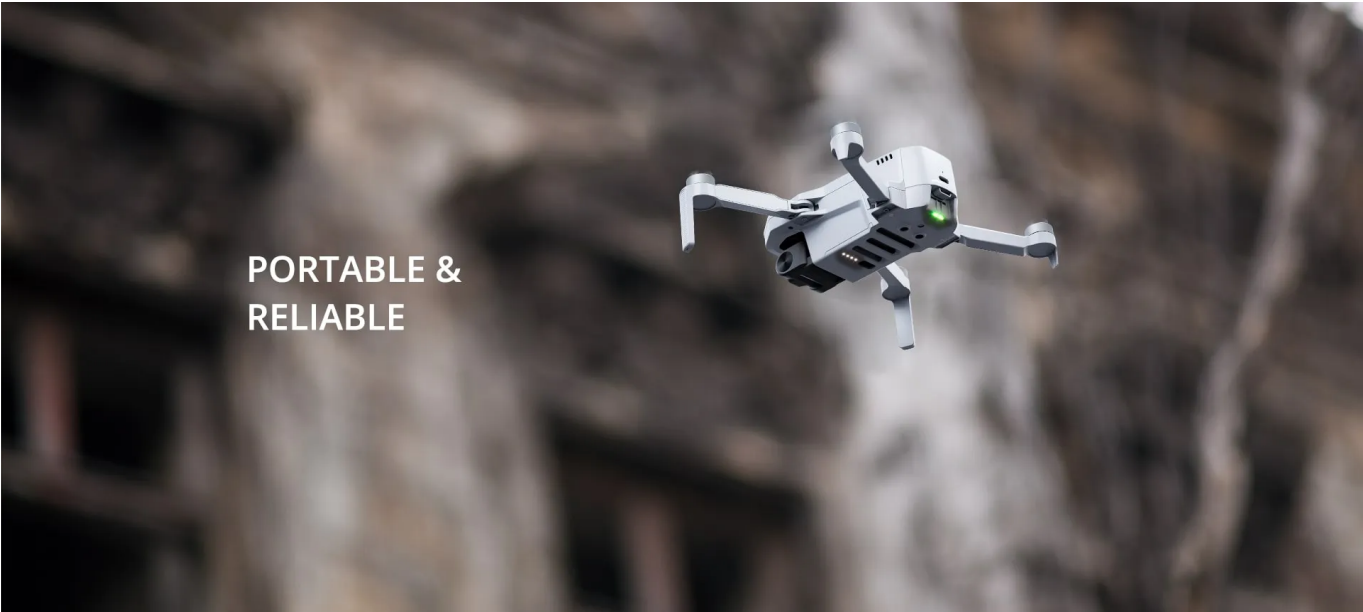

With a weight of **less than 249g** and dimensions of **300x242x58mm** in unfolded form, the **ATOM SE Fly More Combo** is small enough to fit in the palm of your hand or in a backpack. Thanks to this low weight, the drone does not require registration in many countries such as the US (FAA), making it even more practical. You can easily take it anywhere with you and enjoy your flight without any paperwork.

<249g

Long Range

The **ATOM SE Fly More Combo** offers a transmission range of **up to 4km**, and the **Pixsync 2.0™** video transmission system ensures steady and smooth video in most conditions. You can fly your drone up to 4km away while transmitting **720P HD** video. It's ideal for those looking to capture amazing shots from a distance.

PORTABLE &
RELIABLE

Long flight time

With a larger **2500mAh** battery, the **ATOM SE Fly More Combo** can fly **for up to 31 minutes** on a single charge. This allows for longer flights and fewer charging interruptions, giving you more freedom to capture creative moments. Longer flight time means more opportunities to capture perfect shots.

Powerful SurgeFly™ Flight Control System

The enhanced **SurgeFly™** flight control system offers pilots a reliable flight experience. It has three flight modes - **video, normal and sport**, and can accelerate to a maximum speed of **16m/s in just 2.8 seconds**. This allows you to hone your piloting skills and challenge yourself further.

Ease of Use and Safety

The ATOM SE Fly More Combo is very easy to use. Just insert the battery, pair and calibrate the drone, and it's ready to fly. It has a dedicated home button that allows the drone to return to its starting point if needed. With video positioning sensors and a **ToF** sensor, the **SurgeFly™** flight control system provides optimal navigation and stability, even when flying indoors or in environments without **GPS** signal.
