Price: **429.00 zł** gross / 348.78 zł net

Manufacturer: EXTRALINK

Referention number: DNXGHJJNKRMMKM

Information:

The EXTRALINK Powerlink drill driver with a 20 V brushless motor delivers high performance, longer service life, lower energy consumption and quieter operation. Two 1500 mAh batteries guarantee long, mobile, cord-free working, while the maximum drilling diameter of 10 mm is suitable for wood and metal. The ergonomic, rubberised handle increases comfort and grip security, and the LED light makes it easier to work in low light. The set is completed by a practical case for convenient transport and storage.

Full product description

Multitasking cordless drill for every home

Looking for a reliable tool that can handle any home repair? **Powerlink** is a cordless **drill/driver** that combines power, precision and mobility. With a **torque of 50 Nm**, you can easily drill holes in wood, metal and even concrete. It's a great choice for DIYers who want one versatile tool for all tasks. **The impact function**, two rechargeable batteries and ergonomic design make it the perfect tool for everyday use. With **Powerlink**, every job becomes easier and faster.

Precision with two gears

With a **two-speed speed control** (0-350 / 0-1350 RPM), you can easily adjust your work pace to suit your specific task and material. Slower speeds allow you to make **precise screwdriving**, while higher speeds provide **fast drilling in harder surfaces**. Such a solution gives you full flexibility in your work - without the risk of damaging the material. **Switching gears is intuitive and smooth**, which increases the comfort of use. This is a feature that both beginners and experienced users will appreciate.

Impact function for more difficult tasks

The built-in **impact** function reaches up to **21,600 strokes per minute**, making this **Powerlink cordless screwdriver** a real tool for special tasks. With it, you can easily drill through **masonry, brick or concrete** - without having to use a separate impact drill. It's the perfect choice for anyone who wants **one tool for multiple applications**. **The impact works efficiently** without requiring excessive pressure - all with your comfort in mind. **Powerlink** combines functionality with professional performance.

Two batteries - full mobility and continuity of work

You get **two powerful rechargeable batteries** in the kit, which allow you to work without unnecessary downtime. When one runs out, you simply swap it for the other and continue operations - **without nervously interrupting the project**. This is a big advantage for larger jobs where time and fluidity count. **The Powerlink cordless drill/driver set** provides independence from power sources and greater convenience. It's a solution that **really makes life easier**.

Powerlink comfort, durability and ergonomics

The sturdy housing, compact form and well-shaped handle make the tool **sit well in the hand** - even during long work sessions. **The Powerlink screwdriver** is designed for comfort and durability - **resistant to impact and heavy use**. It is ideal for working in hard-to-reach places, and its low weight reduces hand fatigue. It's a tool that **not only works great, but also looks good**. With **Powerlink**, housework becomes easier, faster and more satisfying.
