Full product description

Versatility you can count on

The **Powerlink** drill/driver is a reliable tool for both everyday repairs and more demanding projects. Equipped with a **powerful torque of 50 N.m** and a **percussion function**, it can easily handle drilling in concrete, brick or wood. It's an ideal choice for **home DIYers** who want versatility and solid performance. It will work well in bolting furniture, hanging shelves or installing plumbing. **If you are looking for equipment that can handle any task - Powerlink is for you.**

Precision work thanks to two gears

Thanks to **the two-speed speed control (0-350 / 0-1350 rpm)**, you are free to adjust the working speed to the nature of the task. The lower gear allows precise screwdriving, while the higher gear provides speed and efficiency when drilling. It's a solution that significantly increases comfort, especially during longer jobs. **Powerlink focuses on functionality**, giving you full control in every situation. Intuitive operation makes the device suitable for both amateurs and experienced users.

Two batteries - no interruptions

Included with the **Powerlink** drill, you get up to **two powerful 1500 mAh rechargeable batteries** for long and uninterrupted operation. This is a great convenience in conditions where access to power is limited. **No cables and no searching for an outlet** - just full freedom of action at home, in the garden, workshop or allotment. Charging one battery while working on another saves time and increases productivity. **The mobility you need, without compromise.**

A powerful stroke that makes a difference

With an impact mechanism of up to **21,600 strokes per minute**, the **Powerlink** can easily handle hard surfaces. Combined with **the HAMMER 13 mm head**, the drill becomes indispensable for repair and construction work. An ordinary screwdriver will not cope where **this machine shines with its full capabilities**. Ideal for drilling holes in concrete, hollow blocks or thick slabs. **Performance and reliability in one compact design.**

Ergonomics and robust design

The **Powerlink** drill/driver is designed for **maximum comfort**. Its compact size, well-balanced housing and **comfortable handle** ensure

comfort even when working for hours. Thanks to its solid workmanship and modern design, it's a tool that not only works, but also looks professional. The device combines **power and durability with aesthetics and convenience**. It is an ideal choice for anyone who appreciates functionality and quality.
