Full product description

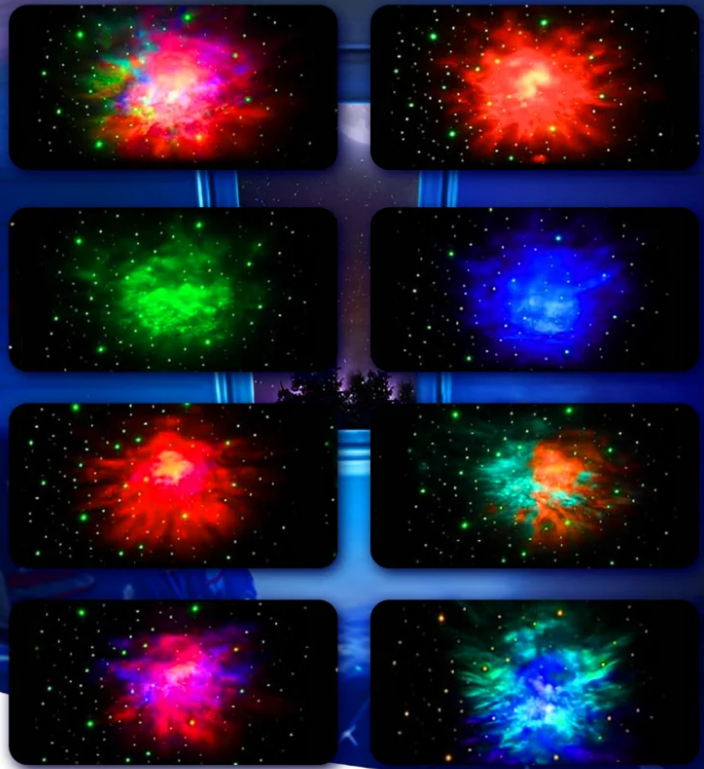

An enchanting starry spectacle

Immerse yourself in the wonders of the cosmos with the star projector. This unique astronaut-shaped **starry sky projector** paints the space with colorful and unpredictable nebulae, high-definition galaxies and gently twinkling stars. The multi-color palette evokes the tranquility of night under the stars, transforming any room into a heavenly haven. Its ability to stimulate curiosity, imagination and creativity makes it especially appealing to children.

CUSTOMISE YOUR OWN NEBULA EFFECT!

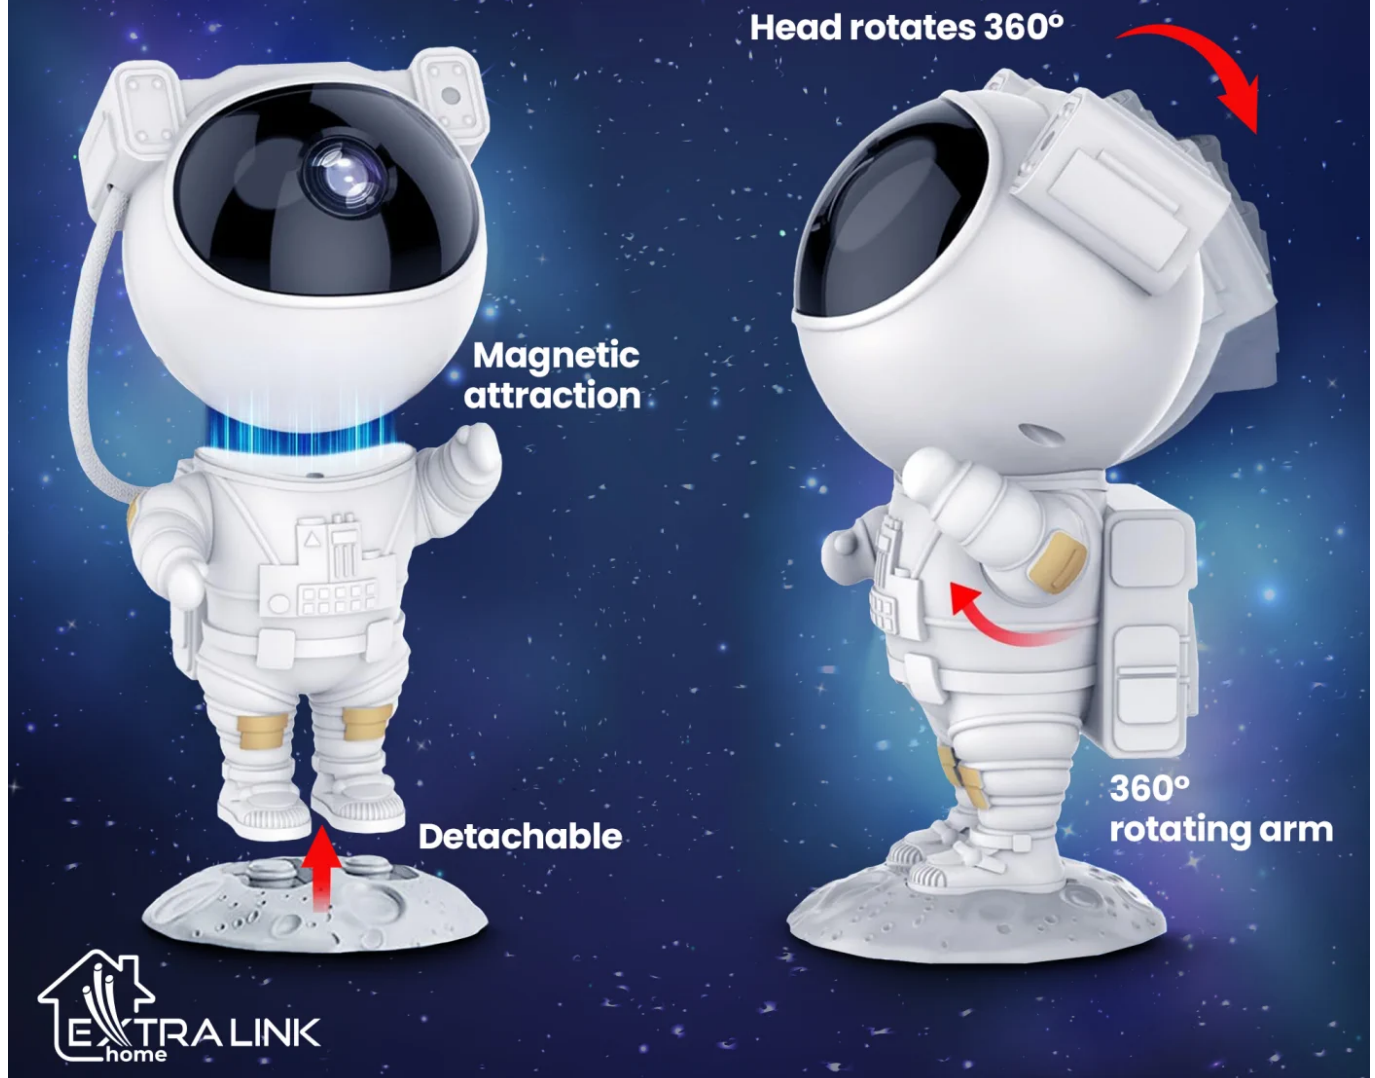

Nebula and stars can be displayed simultaneously or separately.

Interactive and versatile design

The design of the projector is not just aesthetics; it is **interactive and versatile**. The astronaut's head, thanks to its **magnetic 360° rotation**, projects nebulae in any direction without any restrictions. What's more, the **adjustable arms** allow the astronaut to assume different poses, making it a charming decorative piece. Whether for atmosphere or exploration, this projector will add a touch of cosmic wonder to your space.

Adjustable tilt angle to suit individual preferences

Convenient control and personalization

Ease of use is a key feature of this stellar projector. It offers **two control methods**: a simple push button and a versatile remote control. The **button on the back** controls basic functions such as power, mode switching and a long press to turn off. The **remote control**, however, enhances the user experience by allowing adjustment of color, brightness and flashing frequency. In addition, it has a timer for automatic shutdown - ideal for putting children to sleep or making it easier to control.

REMOTE CONTROL

Switch between selected colours

Versatile lighting applications

In addition to a simple projector, this device meets a variety of lighting needs. It can be a dimmable bedside lamp, a mood light for a bedroom or living room, a decorative light for sofas and tables, an addition to a car's ambience, or even a strobe light for a small home theater. It is also an **excellent decorative addition** to study rooms, computer desks and game rooms, offering a touch of galaxy wherever it is placed.

CHILDREN'S ROOM

GAMING ROOM

PARTY

FILM NIGHT

The perfect gift for people of all ages

The **Galaxy Projector - Astronaut** is not only a great addition to any space, but also a thoughtful gift. Its ability to **stimulate curiosity, imagination and creativity** makes it especially appealing to children. It is **ideal for creating a beautiful nighttime atmosphere for children**, spending a romantic and relaxing evening with a loved one, or simply unwinding after a long day. This projector is the perfect Christmas gift for lovers, children, family and friends, incorporating the beauty of the night sky in the charming form of an astronaut.
